NEWCASTLE.—The Chartists met on Friday evening. It was determined to send a delegate to welcome O'Brien from his cell. Mr. Morgan, the county missionary, reported that he had visited Hartley Pans, Seghill, Foreman's Row, Blyth, Hedderston, Cramlington, at all of which places the executive committee meetings were held, and where the heads of the bands were met.

GLASGOW.—A lecture was delivered in St. Andrew's Church, Glasgow, Monday night on the evils of

REPORTED INTELLIGENCE IN RELATION TO THE LOSS
OF THE STEAMER PRESIDENT.—(From the *Boston*

uracy, and will make all proper allowances for
probability:—"The Loss of the President

awful and inevitable fate. We, unhappy passengers and company of the President steamer, had high weather from the hour of our departure from New York. On the night of the 14th instant it blew furiously, with hail and snow, and the highest

er was the unfortunate Horns, who, being in delicate health, died on the second day, of cold and hunger. This is the only case of mortality as yet, as the ice is breaking up fast, we hope of us except to survive more than two or three days longer,

The ship was strong and well found—the captain and crew skilful, prudent, and courageous. I should have mentioned before that our boats, with the exception of the long boat, were all washed away the

by the concussion. Even had this not been the case, no boat could have lived in such sea. Our spirits are dead within us. Captain Roberts and Rev. Mr. Cookman are the only ones that endeavor to keep up the courage of the rest. I fear that

Nevertheless, God's will, not ours, be done. Yesterday we were so fortunate as to pick up the case of a small shark, which was dashed against standing prison, by the violence of the waves.

DEPENDING ON ONE'S WITS.—We have heard that a journeyman tailor, who left the neighbourhood of Derby on tramp a short time ago, played off the following not very creditable tale, *piece of work*.

FAILURE OF THE RURAL POLICE.—We have this
 week good news to communicate. Our readers will
 remember that the question of a rural police in the
 West Riding was some time ago placed in abeyance

re had been fairly tried. It has been tried now a longer time than was necessary to ascertain its effect, and it has utterly failed. On Thursday week, the adjourned annual session of the peace for the county of Lancaster, held at the Court-house, Pres-

sent in court, a resolution was adopted by a majority of seventy-two to twenty-eight, to the effect that it was inexpedient to continue for any longer period than was compulsory, the existing establishment of county police. This unconstitutional force

sons which induced such a large majority to vote the dissolution of this pet force are worthy of entire consideration, since they furnish us with complete refutation of the Whig arguments in Wiltshire. Its grievous expence, and its notorious

continued to experience, were the causes assigned by Lancashire magistrates for their votes against continuance of the force. Between three hundred and four hundred petitions were presented in the county, signed by all classes of ratepayers,

Whigs would force it on this riding), we have it the authority of several magistrates that the Leicestershire police was of no benefit whatsoever.

ist Mr. P. Ainsworth said "the prevailing opinion in Bolton was, that the force was quite operative. The charges now levied on four townships were £300, whereas before they did not

HUDDERSFIELD CLOTH MARKET, TUESDAY, SEP. 22, 1841.

2. The business done in the market this week was much less than a many previous weeks. There was a fair quantity of all kinds of goods brought into the market, but the buyers were not so found. The prices in wools, oils, &c. remain pretty firm.

BRADFORD MARKET, THURSDAY, SEPT. 23d.

Wool—The market for English Wools still continues flat, though there is a tolerable demand for the heavier sorts. Prices are not any better, nor have any prospect of improvement. In Foreign Wools the business continues much the same, and

prices (notwithstanding the quantity arrived from the sales), are firm. *Yarn*—The demand for *Yarn* continues without alteration. *Press steady*. *Pine*—We do not notice any change to-day; the demand is steady, and a moderate business doing for the fall trade. In prices no observable difference.

BEDFORD FORTNIGHT FAIR, TUESDAY, SEPT. 21.
Our show at this day's market of Beef was not large, but well sold up; there was a good supply of Mutton which sold low. Beef, 6s. 9d. to 7s. 8d. Mutton 6d. per lb.

BEACONSFORD CORN MARKET, SEPT. 12.—We had

KUCUMBER MARKETS.—We have a very abundant supply of grain in our market to-day, and the same quality of the same crops. The wheat sample of the market is very fine, and the quality is excellent. LEADS CLOTH MARKETS.—We are happy to announce an improvement in the demand of the staple productions in this district; and, although hundreds of hands are unemployed, and those who have work are not remunerated, still the trade on the whole is better, and in the warehouses particularly so.

LIVERPOOL CATTLE MARKET, MONDAY, SEPT. 1.

6597. LIVERPOOL CORN MARKET, MONDAY, SEPT. 20.
During the last seven days we have not had a
arrivals from Canada, and moderate imports
British Grain, Flour and Oatmeal. There are
ported from foreign states 15,878 qrs of Wheat,
of Oats, 173 qrs of Barley, 2217 qrs of Beans,
700 brls of Flour, and the duty having declined
the lowest point, the Wheat and Flour, together
with the previous stocks in bond, amounting
about 170,000 qrs and 140,000 brls respectively, a
now offering for home consumption. At Tuesday

market, a large business was done in Wheat (principally in bond on speculation), but with fine weather since, and the release of the foreign, the market has been less animated, and whilst the better descriptions of Wheat are the turn lower, we have to no extent all other qualities 2d to 3d per bushel cheaper. Flour in moderate demand at is below our quotations. At Friday's market there was rather more inquiry for Oats, holders remaining firm; however, at previous rates, there were not many sales, no new at market. Oatmeal dull, without change of value. Barley, Beans, and Peas, have sold only

MANCHESTER CORN MARKET, SEPT. 18.—No wheat and flour, there was but a small show samples at our market this morning, and the transactions in Wheat were to a limited extent, at about the previous currency. Prime qualities of English Flour were likewise in short supply, and command

BOROUGH HOP MARKET, SEPT. 17.—Hop picking has now become very general in all quarters, but we learn that the produce is much lighter than was anticipated. However, the trade here is very heavy at further drooping currencies, while the duty backed at £165,000 to £170,000. Nearly 600 picks of new hops have come to hand, chiefly from Kent, but as they have proved mouldy, they have not produced more than from £6 to £3 per cwt.

East Kent, in pockets, £7 10s. to £8 10s.; ditto, bags, £6 10s. to £7 5s.; Mid Kent, in pockets, £7 10s. to £8 10s., ditto, in bags, £6 5s. to £7 5s.; £8 10s. to £6 10s.; ditto, in bags, £4 5s. to £5 5s.; Farnhams, £12 to £14; Old Olds, £2 £4 per cwt.

LONDON SMITHFIELD MARKET, MONDAY.—The market of to-day was a quiet one, numerous supplied with beasts, yet there was slight falling off compared with that exhibited on this day so many nights. As the attendance of dealers was good, the beef trade was firm, and just Monday's quotations

were firmly maintained; in fact, a slight improvement was noticed in some instances. The receipts from Scotland consisted of 200 Scots, and 194 shillings in good condition. Although the numbers of sheep were by no means great, the inquiry for them was rather slow, and the highest price obtained for the best of Downs was 5s. per fives. In calves, which a fair supply was brought forward, little was doing, at drooping rates. The pork trade was firm, at higher currencies. The general quality of the stock was good.
