Te shall fat young Freedom's lallow; So 'tis just. " People's herces, mountain-breasted, Looking lightnings, tempest-treasted, Seize the sword ! Bellow with a vengefal thunder, Turn each topmast over under, Let Pride's purple minions wonder, Saith the Lord ! " For their hopes a strong delusion, For their plans a dark confusion. I have stored. Pride with folly shall be mated, Wisdom still shall come belated, Mercy shall not find the fated, Saith the Lord ! " Iran men and unrelenting,	on the 6th. This division, through its march from Candabar to Ghuzues and to Cabul, and through the passes from Gabul, has carned for itself well-merited praise. Rumour asserts that feelings of jealousy ex- isted between two of the Commanders of the gallant army, who had, by their conjoined efforts, re-established the reputation of the British srms in Central Asia; the cause of those feelings was not known to the public. The retreat of the British from Cabul was preceded by the destruction of the celebrated bazar of that capital. Its destruction is stated to have been caused by its having been the principal theatre of the indignities with which the bedy of the British Envoy, Sir W. H. Macnaghten, was treated, subsequent to his murder by Akhbar Khan. This assass appears to have lost his influence in that country, for the marder of the Envoy and his treachery practised towards the British troops in January last year having deprived him of all chance	with the Governor-General. TDEAR BROTHERS,-You are aware that previous to the issuing of the present Lecturers' Pan, a notice appeared in the "Northern Star" to the effect that each locality forward to the District Secretary information as to whether they intend to remain on the Plan, or otherwise; the name or names of parties in their locality who were willing and competent to be placed upon the Plan as lecturers for this district; and whether any of those already on the Plan wished to have their names erased. But, notwithstanding this notice, and a delay of four weeks, to give time for them to forward the information required before the bringing out of the present plan, very few of the localities thought proper to answer the notice, or forward-to the Secretary the information he desired. He, therefore, took their silence as an admission that they intended to remain on the Plan as usual; but no sooner is the Plan published, and the lecturers commence their labours according to its provisions, than first one place and then another state that they did not intend to be on the Plan for the present. And, in the same manner, several of the lecturers have withdrawn their names. These proceedings have thrown the district into confusion, and rendered the present plan entirely useless. It is, therefore, indispensably necessary to get a correct Plan out as speedily as possible. And it is heped that the localities will not neglect their duty on this occasion, but forward the information required by sending delegates to the meeting to be held on Sunday, Jan. 22nd; or by forwarding, by letter, their determination, before the above date, to Wm Dixon, No 11, Nelsonstreet, Bank Top, Manchester.

By attending to this you will oblige. Yours in the cause,

WM. DIXON, District Secretary. Manchester, Jan. 11, 1843.

TO ALL GOOD CHARTISTS.

Leicester, Jan, 9, 1843.

BRETHREN,-William Ellis's widow and her innocent children are in need of an asylum. It is proposed to set her no in some small business-as a news-agent or something of that kind. John Cleave is the treasurer for a fund to be raised with that intent. We commenced it at the Conference. I took a cap round to every member, and the sum collected was £3 6s., in addition to 2s. 6d. from Mr. O'Higgins, the chairman and 23. 6d. given him for this benevelent purpose by some Complete Suffrage gentleman. I most urgently entreat you to use every effort towards raising this fund to a decent sum-a sum sufficient to start the poor widow comfortably.

Permit me, also, to throw out another hint. Cannot some of you point out a suitable locality for Mrs. Ellis? Some friends proposed that she should go to Burslem, but she sheds tears immediately when Burslem is mentioned-she dreads going there. Poor Ellis, too, in one of the letters I have received towards compiling the memoir (which I shall have ready very shortly) expresses a sense of horror at the thought of his wife and children going to reside at Burslem. Do you know the factions say, " they will exterminate the whole brood of the Ellises !"

Now, under such circumstances, I say poor Mrs. Ellis shall not go to Burslem, and your hearts will impel you to say so too. Find a place for her, then ; some good hearty Chartist locality, where she and her children deep-seated sorrow will permit.

Then how was it, that instead of pursuing this course, which was laid down by themselves, they were so resolute in pressing their invidious " priority" and then after refusing to carry out the resolution passed at the former Conference, and for which purpose we were assembled-after breaking faith with the invitation by which we were convened-for some reason or another, setting aside their own programme, and after submitting the question to a vote, retiring from the Conference, thus violating an important principle, and furnishing the enemies of the people with a weapon against them; they endeavour to throw all the edium upon the Chartist delegates, and, despite the evidence of their own documents, have the assurance to lay aside the power-loom ? Or do you mean to accuse them of " ebstructing the regular business of

the Conference." The Rev. E. Miall said, "they must bear in mind that the Council who had convened that body, was, after all, the germ of whatever life the Conference had ; that it was the creature of the Council, for the purposes stated to be their main object"\*-(hear, hear). Such language as this, is so repulsive to the principles of democracy, and the sense of dignity with which those principles should inspire us, and so contrary to the nature of our invitation, as to require no further refutation than to be placed in juxtaposition with the address by which we were convened, and the resolution, which for the purpose of carrying out, we were as-

sembled. Let the Rev. E. Miall point out the paragraph in any public document, which convened us as the creatures of the Council. We assembled as the delegates of the people, honestly and to the best of our ability to " prepare a bill to be submitted to Parliament, for securing the just representation of the whole people," and "to determine the best legal and constitutional means for energetically and peaceably carrying out the above objects." I indignantly repel the assertion that we went there as the

creatures of the Council. In another letter, I intend alluding to the great stumbling block, "physical force," and show who have been, and who are its abettors.

> I remain, Sir, Yours truly. R. T. MORRISON.

In accordance with our promise of last week, we give in this week's Star two most important documents. The one, the Indictment, will need no comment from us here. The time to comment on it will be in March next. Then we fancy that both we and many others may have much to say upon and respecting it.

The other document, the Minutes of the Conference, is well deserving of the attention of the people. There they have the business of the Conference before them at a glance. TO THE ROITOR OF THE WORTHERN STAR.

SIR-In my last I pointed out the position which the Complete Suffrage party took in the late Conference and after comparing their conduct with their avowei principles, showed the inconsistency, and the relation adults employed, and the number of minors : and had seceded.

I will now enter into some of the principal arguments individuals, for bodies do not reason in a mass, though the manufacturing labour-market. For a while the it may be done by the SMALL-PARM system, with a tenant sold the produce at a fair price; when by adopting the arguments of an individual, and pursuing the course of conduct advised, they become responsible for such arguments and conduct.

Mr. Richard Gardener said, that "It abould be first to; the man becomes broken-spirited and pauperof all distinctly understood that in no one principle had they differed, it was simply a question of discipline and order; and the majority having compelled the secession destitution is the consequence ! and enough of this MARSHALL as a great good. The Portuguese gained, a moral revolution in 1820. From a severe desp otism they became a democrati without even a oloody nese or an angry work. They were called the sovereign people. They were told, by sincere friends, to be sure to manage their own affairs; b at they thought they had gained the Constitution? & Charter, and all would be right. A set of lawy ers forced themselves upon the people as their le aders; said they were democrats; persnaded th A people they wanted their advice; 29cured t' cemselves in power, and sold their employer 4. One of these said lawyers is now one of the C pieen's Ministers, at Lisbon. The F sanch people fought in 1830, and gained, by ble ad, a glorious revolution. They drove a tyrant fr am his throne ; but, then, they could not manage t Areir own affairs, or they would not. What was " se result ? They allowed a man to take the lead who accepted the title of Citizen King; and he had done, with impunity, that which the despotis king only talked of doing, and the French are still slaves.

In the following year the Belgians gained as complete a victory over despetism as any to be found recorded in history. The whole was done by the working people; but when the middle classes saw them masters, they came forward as leaders. The people put their affairs into their hands, and they sold them. The Belgians are now slaves again, with the difference, that under the Dutch yoke they supported half a royal family ; and now they have a whole one to maintain, and that likely to be a large one.

You see by these recorded examples, that it is of no use to agitate for, and gain by any means an object, except you are determined to manage it when you have got it. Let merit alone be a qualification for candidates who wish to serve you, -and beware of humbug!"
