We had a fair average supply of fine Foreign Wheat on offer, the sale for which was so inanimate that prices were nominally unaltered. Very little has been imported during the week. The best Malting Barley was taken off freely, at fall rates of currency, but in grinding and distilling sorts very little was transacted. Good season-made Mait was in steady inquiry, and other qualities were quite as dear. Owing to the increased receipts of Oats from Ireland. the Oat trade wasslow, yet the rates were unaltered Beans and Peas were in short supply, and sluggish inquiry, at late rates. The Flour trade was again dull, and the nominal price of the best town-made was 433. per 280lbs.

SHITEPIELD CATTLE MARKET, MONDAY, JAN. 16 .-Compared with that exhibited on this day se'nnight, the supply of beasts on sale this morning was but moderate, yet it proved fully adequate to meet the demands of the butchers, whose attendance was not to say numerous. For the primest qualities, we had a fair, but by no means brisk inquiry; also, in most instances, prices about equal to those obtained on Monday last, but the middling and inferior descriptions were heavy, at barely last week's rates. However, a clearance was affected previously to the conclusion of business. During the past week not a single head of stock has been imported from any quarter, and we had none here to-day; hence. we are compelled to omit cur usual tabular statement of imports.

BOROUGH HOP MARKET.-Although our supplies of Hops continue tolerably good for the season, the demand for them rules firm, and the quotations noted on this day se'nnight are readily supported. East Kent in pocktes, £5 10s. to £6 12s. ; Mid. do. £5. 53. to £6 23.; ditto, in bags, £4 to £5 10s.; Sussex, £4 to £5 53. ; Farnhams, £8 8s. to £10 10s.; Old Hops, £3 to £4 10s.

WOOL MARKETS .- Since our last, the imports of wool into London, have been about 3,000 bales and bags, mostly from our Australian colonies. There is a steady inquiry for the best qualities, at full rates of currency, but in other kinds very little is avail themselves of the present opportunity of orippassing.

TALLOW MARKET .- During the past week, there saving. has been a better demand than for some time past, but, notwithstanding, the price is rather on the deeline; this arises from a disposition on the part of the holders generally to realise. The price for the antumn of this year, being about 463 to 463 3d, offers them no inducement to support the present rates, and to incur heavy charges. The home supply of Tallow is good, and the price, 47s 6d to 48s net -cash.

POTATO MARKETS .- The receipts of Potatoes in the Pool during the past week have been on a liberal scale. The demand, however, arising from the seasonable change in the weather, has become firm, and late rates are firmly supported :-Scotch reds. 45s to 50s per ton ; York, ditto. 55s to 60s ; Devone, 453 to 503; Kent and Essex whites, 403 to 453; Wisbeach, 353 to 453; Jersey and Gurnsey blues, 353 to 403; Yorkshire Prince Regents, 453 to 50s.

Gentlemen,-You will oblige by forwarding, at your earliest convenience, the same quantity of PARR'S LIFE PILLS as last sent. While I am writing I cannot refrain from communicating the fiattering intelligence of the great good your pills are doing in Leeds and its neighbourhood. It is clearly great error to find fault with a medicine merely because it is a patent one; and more especially since its use has contributed so largely to the publie health. The fact is, however, predjudice is fast giving way, as it always must where the pills are tried. A few cases in point may serve to confirm and illustrate what I have asserted.

LIVERPOOL CORN MARKET, MONDAY, JAN. 16 .-The supplies of Grain generally have been small during the past week. The market is very bare of Oats, and 2: 5d per 45lbs is readily made of good mealing qualities. Oatmeal also is fully as dear ; good Irish manufacture sold on Friday in small parcels at 21s 9d per 240lbs. Barley, Beans, and Peas, continue in limited request, without alteration in prices.

MANCHESTER CORN MARKET, SATURDAY, JAN. 14.-A steady consumptive demand for Flour has been experienced throughout the week, fully equal to the supply; and, the stocks being light, Factors were enabled to realize an improvement on the previous week's advance, 40s per sack having been obtained for choice qualities of English whites. Oatmeal has likewise been in better request, and superior cuts have found buyers at 23s per load. The supplies into this district from the interior continue scinty, whilst from Ireland the imports at Liverpool and Runcorn comprises 2683 quarters of Wheat, 2737 quarters of Oats, 2658 sacks of Flour, and 9467 loads of Oatmeal. There was not much passing at our market this morning, but the advance noted this day se'nnight on Wheat was firmly supported. On Flour and Oatmeal we likewise raise our quotations 6d to Is per sack on the former, and 6d per load on the latter article. In the value of Oats or Beans no change can be noted.

ROCHDALE FLANNEL MARKET, MONDAY, JAN. 16. -We have had an unusually duil market to-day. Very few buyers have attended; and the business transacted has been very limited. The merchants have offered less money for flannels, but the manufacturers very generally have refused to sell at reduced prices. The wool market has been still worse; few sales have been effected at any price.

THE SPINAL COMPLAINT.

Some of the Cases of Cure effected by it are beyond belief; and, were not the parties living, and perfectly willing, nay, anxiously ready to be referred to, and to testify to the wonderful benefits they have received, the Proprietor of the Ointment dare not mention them for fear of being charged with an attempt to practise upon the credulity of the public. The parties, however, are living ; they can be refer-red to ; and their testimony is of the highest impor-tance to all afflicted with Spinal affection.

RECENT CASES.

1. William Moss, son of Thomas Moss, Tailor, Northgate, Huddersfield, has been afflicted with the spinal complaint for nearly two years; and during that time has been under the medical treatment of several of the Medical Profession in the neighbonrhood, but received no relief. His back was quite crooked and deformed. After using the Spinal Ointment a short time, he was completely recovered, and is now strong and healthy.

TO "FRIEND" STURGE.

" Friend" Sturge, come tell to us I pray, The reason why you ran away, And in Conference would not stay When men spoke of the Charter?

Were you alraid to hear the truth Or wished to stay its rapid growth ? Or did you fear the frown of Ruth For listening to the Charter ?

Come, Joseph, speak the truth outright And set not as an hypecrite ; Dut you love darkness more than light And frand more than the Charter 1

Now are there not behind the scenes. Jories, Whigs and Go-betweens, Griping Dan and his spalpeens. And all who hate the Charter ?

You say you seek the country's good, And fain wenid give the hungry food, II as, you sheuld your ground have stood. And struggled for the Charter ?

Tou bark is wreck'd upon the share : State pedlar's cant and lawyer's lore The loss no Briton will deplore, Who seeks the People's Charter.

Aid from your clique we will not sne-The smiles of party we won't woo : For we ourselves the work can do. And plant the bealing Charter,

The blistered hand and unahorn chin. With rarged back and belly thin. Must alone the conquest win,

And carry out the Charter. W. RIDER

ABERDEEN.-A public meeting, called by advertisement, was held in the Hall, 88, George-street. on Wednesday week, to hear the report of Mr. Archibald M'Donald, their delegate, who along with Mr. Wm. Chilton, Birmingham, represented the citizens of Aberdeen in the Conference lately held at Birmingham. The Hall was densely crowded, even to overflowing, and the greatest interest seemed to prevail throughout the immense throng, while Mr. M'Donald went over the principal matters which had come before the Conference, and which he explained in a clear and masterly manner, very much Mr. John Ambler, potier. Moor-street. Brewery to the satisfaction of the meeting, who recorded an unanimous vote of thanks to him and Mr. Chilton. When Mr. M'Donald had closed his discourse, which occupied above two hours in delivery, Mr. John Legge rose, and moved the following resolution. which was seconded by Mr. John Fraser, and carried all but manimously :- " That this meeting is of opinion that the Complete Suffrage Delegates, in having withdrawn from the Conference, acted contrary to the principles and spirit of democracy; that they being the parties who called that Conference, the object of which was to endeavour to unite the middle and working classes for the immediste attainment of universal freedom-but when they, the Complete Suffragists, found themselves unable to carry their own particular plans into operation, withdrew, we, therefore, in public meeting assembled, express our decided abhorrence at such castardly conduct, being in our opinion extremely at variance with the common usages of every deliberative assembly.

LONDON.-The metropolitan delegate meeting was held on Sunday afternoon, Mr. Knight in the chair. Efedentials were received from Mr. Moy, for Lambeth ; Mr. Pickersgill, from Giobe Fields; and Messrs. Bogers and Beck, from the Star, Golden-lane. Two shillings and sixpence was received from the Horns, Crusifix-lane, for delegate meeting, and several small sums for Mr. Wild. A letter was received from a gentleman stating that he had made a present of a handsome pair of silver-plated candlestizes to be raffled for in aid of the Vietim Faud, tickets 1s. each : and if upwards of one hundred were sold, he would also give to the winner a pair of snuffers and tray tomatch. The present was exhibited in the room and was much admired. The Secretary was instructed to write a letter of thanks to the donor, and several tickets were disposed of. Considerable dissatisfaction was expressed at the non-attendance of the delegates, and the Secretary was instructed to write to their localities. Reports were received from several localities deprecating the time of the delegate meeting being wasted in useless discussions regarding the anti-Corn Law party. Mr. Rose moved, and Mr. Andrews seconded, "That the delegate meeting organize a Metropolitan Victim and Defence Fund for the defence and support of those who might become victims in the metropolitan district. or who may have been members of any London locality." Messrs. Page, Humphries, Cuffay, Wheeler, and others pointed out the necessity of such a fund, and regretted that no active general defence committee was in existence, which might have superseded the necessity of such a step. The motion was unanimouusly agreed to, it being distinctly understood that whatever surplus of money should at any time be in hand should be paid over to the general fund. Messrs. Cuffay, Simpson, Rose, Wheeler, Page, Humphries, Cook, Salmon, and Pickersgill, were then appointed a committee to superintend the above fund. Mr. Morris reported that a new locality was to be opened the following evening at Hampstead, and requested the attendance of members. Mr. Maynard wished to substitute another motion in the place of that which he had given notice of; but this being against the rules. Mr. Maynard moved the resolution adopted by the delegates at the Birmingham Conference with the following addition, "we, therefore, recommend to the members of the National Charter Association to abstain from factiously interrupting public meetings of the people called for any plan of reform having for its object the principles contained in the Charter : they deem it also necessary to warn the working classes against being led away for any plan which does not go to the root of their Mr. William Satton, warp-hand, Moira-street, political rights" In proposing this resolution, Mr. Maynard denied the charge of impure motives, which he asserted a daily Chartist journal had attempted to fasten upon them. He was convinced that they must alter their line of policy according to the alteration of circumstances. Mr. Simpson seconded the resolution. and Mr. Knight supported it. Mr. Andrews moved. and Mr. Rose seconded the previous question, which was supported by Messrs. Humphries, Christopher, Page, Mudge, Cook, Overton, Cuffay, Wheeler, and Morris. After an extended discussion, the amendment was carried, by twelve to six. The sum of eight shillings and sixpence was paid for bills, &c., for the raffle getting up by the committee for the benefit of the family of Dr. M'Douall. Mr. Page gave notice of a motion recommending the appointment of an individual to act as General Secretary, until one was duly elected. Mr. Cooper's plan of Organization will also be discussed on Sunday next. The meeting then adjourned.

THE LAND!

THE ONLY MEANS OF SALVATION TO THE STARVING WORKERS.

ARTICLE IL.

In last week's Northern Star we discussed, at considerable length, the general question of the occupancy and employment of THE LAND, as a means of removing the dire poverty and destitution which has now become the lot of the labourers of England. We then attempted to show that there is no other way of again profitably employing the machinerydisplaced adult labourer, than by placing him once more upon the soil, and enabling him to direct his energies to the production of food, and raiment, and shelter, for himself.

In the course of that article we explained the grounds upon which we accord our meed of praise to all who endeavour to form and direct public opinion in favour of this cheap, available, and truly satisfaction, and are happy to co-operate with every shire. opinion in its favour.

In this spirit we accorded praise to Mr. J. G. as a means of enabling them to raise their millwages to something like a living-point; explaining, however, that that praise was not fer the mede Mr. LINE, but rather because his exertions and example

He then named to us this idea of a Conventional Executive. We told him that we thought the idea a good one, but feared whether it could be legally carried out. We think so still. TO THE CHARTISTS OF THE UNITED KINGDOM.

We the Chartists of South Staffordshire being impressed with the claims which the wife of the martyred Ellis has upon public commisseration, would urge upon you the necessity of taking immediate steps to place her, along with her family, in comfortable circumstances, and lessen, as far as account of her husband's expatriation from his native country.

You will, many of you, be aware, that Mrs. Eilis has been left the sole protectress of four children, want to persuade us that they have the welfare and and in a very indifferent situation; and there is in many a disposition to persecute a helpless family for the opinions and course of the parent. To whom then can the children of Ellis and his partner look for succour but to those men in whose cause he suffered, and whose principles he so long and faithfully advocated and defended against the common oppressors of our ill-fated country?

The working men of England are aware that the principles of our Charter will gather strength just in proportion as they rally round those men who advocate them; and shall it be said, that after toiling to emancipate his country, and braving want, hymns, to be sold for the benefit of the widow, danger, and imprisonment, with no object before his will forward pay for what they have sold, and mind's eye but the emancipation of his race and kinsmen from class-laws,-shall it ever be said that he was forgotten, and his offspring neglected, by a question; and we do not see what good end could ation unworthy of him ? rather let our movement itself be sunk deeper than human plummet ever AN OLD CHARTIST AND A LOVER OF JUSTICE ought | sounded, before we can abandon Ellis to his fate, to have been aware that we cannot insert his daring, as he did, to defend the rights of universal man when Chartism itself was struggling for an existence.

Perhaps it may be necessary to state, that Mrs. Ellis passed through Wednesbury and staid a few days, after bidding adieu to her husband in London, and she expressed herself as having no prospect before her but an union workhouse, unless assisted by the country. To prevent this, let every association throw up its quota, and we shall then assuredly save her from the tender mercies of the wicked, which the Bible says are cruel. Such is the difficulty in which she and her family are at present, that necessity has forced her to dispose of all her furniture; she is literally without a home, and without the means of getting a livelihood : and what must have been her feelings, when, instead of sympathy on her return home, she and her helpless children were insulted by those heartless enemies of liberty in the Potteries. Surely no working man will be indifferent to such a case, but will do all he can, and prompt others to do except on the envelope, and post it within seven the same, to meet an example of such pressing nedays of its publication. 2. DREADFUL CASE OF CHILD MURDER .- Mr. Carter, the coroner for Surrey, on Monday held an inquest at the Prince William Henry, Bermondsey-street, on the body of a very fine female child, which was found dead under the following dreadful circumstances :- Ann Stagg, of No. 2, Shepherd's-gardens, Spa road, Bermondsey, stated that on Tuesday night, about eight o'clock, she had occasion to go to a water closet, from which the lock had been forced, and being in a court, is accessible to any one

passing by. She observed a bundle on the seat, which caused her some alarm, and she went for the assistance of a neighbour, of the name of Smith, who opened it, and found it to contain the body of a very fine female child. It was quite dead, and covered with a piece of white calico. The police were called in, and it was conveyed to Mr. Tilley's, of Jamaica-row, surgeon to the force, who was subsequently directed by the Coroner to make a post mortem examination of the body, which he did, and the result of it is as follows. The body was generally healthy; the lungs had been inflated, and he had no doubt it had been born alive. The umbilical cord was lacerated, and great hemorrhage had taken place. This, and exposure to the cold, were the cause of death. The Coroner suggested an open verdict should be returned; but the jury said it was clearly a case of murder, which was of a nature now too frequent. A verdict of rers. and who shall publish, in the Northern Star, an "Wilful murder against some person or persons unknown," was then returned. Inspector Hornsby said he had made every inquiry, and would con-tinue the investigation; hitherto it had been with-

The observers of the barometer were actonished, on Friday morning, on inspecting their instruments, to find that an extraordinary fall of the mercury in the tube had taken place during the night. The fall was Saturday morning. Captain Bursley gaw the packetfrom 28 92 to 28 05. This unusual phenomenon was the general topic of conversation during the day. The barometer in the public rooms were ever under constant inspection, and the minutest movement of the mercury was watched and noted from morning till night. Some said that the phenomenon denoted an earthquake, for that the great earthqueke at Lisben had been preceded by an extraordinary fall of the mercury. Others maintained that it was the precursor of a storm, either from the eastward or westward, though, as the wind was blowing smartly from the westward, that was the probable direction from which the hurricane would sweep All agreed that some swich visitation was impending, but whether a convulsion of the carth or merely of the stmosphere nobody could tell. As the day advanced, however, the wind increased, showing that the predictors of the storm were the trne prophets. Towards evening it had changed from a gale to a storm, and from six o'clock on Friday night till four on Saturday morning it blew a terrific hurricane, causing serious damage and loss at sea as well as on land.

"HE WHO IS NOT WITH US IS AGAINST US."

PART IL

Ah, we should not care who were against us, if those that are for us were with us indeed-if they were all true-but those who are against us, have great means to use against me-they have power, they have wealth. they can persecute, they can bribe-and custom is on their side-we are poor and have nothing to offer but gratitude. Those who are not satisfied with the justness of the cause and the approval of their own consciences, are led by other inducements, by considerations to forsake us, to betray us. We are God's counsellors and plead the cause of the poor-they have the rich for dients and they advocate worldly interests.

It is in vain for us to to appeal to the understandings of our enemies-they are already convinced that we are right-it is equally vain to appeal to their feelingthey have none-they try to deprecate our resentment by seeming sympathy; to delay the time by devising sham-riforms-they try every art to blind us, to zeduce m, to repel us-and nothing will they yield to but to frar-no nobler motive will ever make them give up their ill-gotten prey, and if ever they are compelled to restore to us cur rights, it will not be without a determination to deprive us of them soon again if possible so that it is no less necessary to be energetic to regain our rights, than it will necessary to be watchful to secure them when gained.

We have been accustomed to look to Parliament for redress, to petition Pariament-but as well might the lamb lock to the wolf for pity, the dove implore the tite for release, as the people look to the Parliament that proys spon them. The people must agree, must associate, nust organize to gain their Charter and get a Parliament of their swn before ever they can hope, or dream of redress. I do not know whether any of you have ever been to see the high court of Parliament, where the collective wisdom of the nation sits-I never have -I could not see without disgust nor listen but with impatience to the proceedings there; for what should I see and hear ?- scented dandles " perfamed like milliners," decked with trinkets like stage-players, things without head or heart, that call themselves members,fi mough to be members of a club of horse-jockeys, umblers, or cockfighters; but not the representatives of a people whose miseries are but mirth to them. The people do not know their own strength, do not fed their own importance, or they would never let such creatures as these libel and laugh at them. Then there are orators who love to show their wit at the expence of the country, or their folly at their own expencefull fed squires who go to take a nap after dinner, nothing being so somnolent as the speeches there-ambilious and worldly wise men, fonder of themselves than of their country-lawyers, usurers, sycophants, who, whenever an honest man rises like a spirit and stands in the midst of them. set up such howlings and screechings to scare him back, that one would belisve Bedlam had broken loose, and all the mad folks had come there. Now what can the people expect from such a motley assembly, but further injury and insult? Would that another Cromwell would arise and go among them to tell them what they are, and to make them give place to honester men.

It is in vain expecting our rights, or even a cessation of wrong from the Court, the Ministry, or the Purliament:-from whom, then, must we expect it ?--why from none but surselves. We must unite and with Ges voice-a voice like the sound of many waters-we must say, these things shall no longer be ! When the Romans united to make known their minds, their voices were so loud that the noise struck the birds of the air as with a shot, and made them fall dead to the ground. If the people of England, Scotland, and Ireland were powers that be, the despots on high, the carrion, the birds that hover over us for prey, would immethe Boreas-blast of liberty.

FIXITY OF TENURE.

The following is the letter of Mr. O'Connell alluded to in Mr. O'Connor's letter of last week :-

" TO THE PEOPLE OF IRELAND.

" • Hereditary bondsmen! know yo not,

Who would be free themselves must strike the blow ?" ought to be kept in the constant recollection, and engraved on the mind of every true Irishman.

"The first is, that no political measure whatsoever can be of any efficacious or permanent value to Ireland, native parliament.

"The second is, that at the present period the means of constitutionally and peaceably repealing the union are in the hands of the people of Ireland.

"As to the first proposition, I need waste no words in proving its accuracy. No man can know anything of the real state of Ireland without being conscious that any other measure, save the repeal of the union, can, at tion in the Chartist ranks in the division of Lancashira, any other measure, save the repeat of the union, can, at whom were the most active and intelligent Chartists. CHARTIST CONFERENCE.

For the last few months, and in fact, since the memorable "strike" of the colliers and others, Chartism in this town was in a disorganized state; for although the localities existed in name they fell sadly short of efficiently performing those duties which fall to the lot of all well-organized bodies. A number of head " Contributions," active and intelligent members of the National Charter Association, deeply deploring this state of things, and knowing well that Chartism was numerically strong in Birmingham, resolved to issue printed circulars calling on each member and friend of the National Charter Association to attend a general meeting or Conference of the whole. The subject was brought before the members of the General Council for Ashton-street Locality. and it was agreed that printed circulars should be issued, of which the following is a copy :--

"Birmingham, January 11th, 1843. SIR,-You are requested to attend a meeting of the members and "There are two propositions of perfect truth, which in Birmingham, on Monday, January 16th, at the friends of the National Charter Association, resident Royal Oak Inn, Little Charles street, at seven o'clock in the evening, for the purpose of considering the best mode of extending and strengthening the cause in this town, and adopting a good mode of operation for the evening. future, in order that full confidence may be established amongst all the members. MAN-WORSHIP-PART 3.

The true patriot ever looks at the cause, never st himself; nor does he ever interpose himself between the cause and the people, like the fly in the telescope, to intercept their view. The cause is not to serve him, but he is to serve the cause, and he is gie on it, he grows like it-he imbiees its influenceshe becomes great and good. Are there any who join him? He rejoices at it for the cause sake ! Do they get before him ? he rejoices still more ! Fall they into the enemy's hands? He laments as Washington did when his brother General and compatriot Lee feil into the hands of the English; he is willing to second or to lead, as circumstances may require. Has fortune favoured him, he will use his fortune to favour the less lationate. He will check every disposition of the people to God him, and will seek rather to inspire them with confidence in themselves than in him, as Tell did, who, when the men of Switzerland wondered at his boldness, told them that not one of them ; but might do as he had done, for he was but a man like me of themselves. He will never raise false expectations by promising more than he can perform, and will put array from himself every suspicion of seeking personal agrandisement or profit, as Cæsar put away his suspetted wife; for, said Cæsar, the wife of Cæsar shall hot be suspected. > SOUTH SHIELDS,-A placard having appeared from the Committee of the Anti-Corn Law Association of this town stating that a Mr. Liddell would deliver a lecture on the repeal of the Corn Laws, on Thursday, the 12th inst., the Chartists considered it desirable. as it was the first time they had dared to attempt to palm their free-trade nostrums upon the working men here publicly, to nip their proceedings in the bud, and if possible, to strangle their darling bantling at its birth. Consequently, long before the time appointed for holding the meeting, the room was crowded to suffication, and hundreds went away unable to get admittance. Business was commenced by appointing Mr. Briggs, a member of the Society of Friends, as chairman, to which no opposition was offered. The lecturer was also allowed to proceed without the least interruption throughout the whole of his addresss, and after he had finished, Mr. Wm. Carr, chairman of the Complete Suffrage Union, proposed a vote of thanks to the lecturer, when Mr. Hamlet Booth, a working man, said he could not let this meeting separate without giving his opinions frankly and disinterestedly upon some of the statements of the lecturer.
