## WAGES OF LABOUR.

In estimating the value of any "improvement" in the mode of producing wealth, it is a rule with us value.

When arguing upon the question of "Extension of with the introduction and present application of Commerce," we have pointedly put the question to those new and mighty agents of civilization, its advocates : "What have been the effects of steam and gas : how much more necessary is former 'Extensions' upon the wages and comforts it to put them, when the Chronicle has not of the labouring many ?" and have honestly arowed proved his position ; when it is a fact staring that if it could be shown that they had been of us full in the face that the condition of the probenefit to the worker; that they had added to ducers of wealth is deteriorated; that the "imhis stock of comforts : that these had enabled him provements" have been anything but "improveto enjoy more of the good things of life; that they ments" to them ! had placed additional beef and bread upon his table. and put additional clothing upon his back : we have oftimes arowed that if this could be shewn to have been the effect of former "Extensions of Commerce," we should be the first to call for, and struggle for, another and greater "Extension."

Our inquiries, however, have led us to a directly opposite conclusion, to that of benefit from former "Extensions." We have endeavoured to ascertain the condition of the labourer at the beginning of the present century,-a period when the beginning of the rapid and much-landed "Extensions of British Commerce" may be dated : and we have contrasted that condition with the present condition of the labourer: and that contrast is not favourable to the "Exten- in the various tours of Arthur Young, in the eastern, sion" cause,

It is not necessary that we say much respecting the labourers's present condition. It is admitted on all hands that it is deplorable in the extreme. There is distress. It is well known that the cottages are labourers; and it does not certainly say so much for comparatively empty of furniture ; that hundreds of the comforts enjoyed by the latter, that upon the

We have been thus plain. that this matter may be understood and looked to: because communications continually reach us which are dangerously, because wrongly, worded. Where principle is concerned, we would be the last to advise the people to succumb to power ; but where it is as in this case, merely a prudential matter, we think too much caution cannot be made use of to prevent the enemy from arming themselves with our own weapons. And hence we have thought it requisite to substitute these plain directions for the article we promised respecting the improvement of the Or. ganization. which we reserve for another week, and with the less regret, because it may probably be somewhat longer than we could at present find space for, in addition to the lengthy and important

matters already given.

During the last fifty years we have ADDED to our means of producing wealth most immensely. The producing-power of the Kingdom at the beginning of the present century has been stated by eminent Staticians to have been :-

Manual Labour ... ... ... 3,750,000 Mechanical and Scientific Power equal to ... ... ... 11,250,000 15,000,000 Total

The population at that period was also 15,000,000 consequently, the aggregate productive-power and the population were equal, or as one to one.

CLERICAL LIBERALITY! ELSEWHERE our readers will find a simple onvarnished story by JOHN O'ROURKE, setting forth the apostolical character of the Rev. the Vicar of Leeds, chaplain in ordinary to her Majesty, in such a light as to make comment uncalled for. The letter tells its own tale. It is a tale of facts, unembellished and undistorted, and the facts are a vivid comment upon the system by which such men are elevated to the position of lights and lawgivers.

**RECEPTION OF FEARGUS O'CONNOR.** 

On Saturday night last we had a visit from Mr. O'Connor. when the Philosophical Hall, the largest building in the town, was procured for the occasion. At eight o'clock, Mr. O'Connor accompanied by his friends, and preceded by a splendid band, left the Swan Hotel, and proceeded to the place of meeting. The gentleman, upon ascending the platform, was most vociferously cheeved, and shortly after that uncompromising veteran, Mr. Vevers, was unanimously called to the chair; who after a soul-stirring appeal to his audience on behalf of their rights and liberties, introduced Mr. O'Connor to the meeting.

Mr. O'CONNOR spoke for two hours and forty minutes, replying to all the fillscies of the Anti-Corn Law lecturers. He introduced the question now so prominently relied upon by the League to shelter themselves, namely, the immensely increased value given to agricultural and landed property by the spread of manufac- provements, (such as the registration, the place tures. This position, said he, I am not going to deny, but I am going to combat and to expose the League deductions, namely, that they, the landlords, have Balance Sheet should be transmitted to hea received this accession of wealth from profits sub-Secretary in the kingdom, instead on unjustly withheld from capitalists-(hear, hear.) the present method,) is the best that ca-I am going to admit the fact, that landed pro- be had under the present state of the law perty has received great augmentation from the After some discussion, in which the council genencrease of manufactures; but I undertake to prove that | rally approved of the resolution, an amendment was the increase has come from the pockets of the people, moved-" That a committee of five persons be and not from those of their masters-(loud cheers.) appointed to examine both plans, with a view that Now the great augmentation to landed property con. | the Leeds' Chartists may submit one to the consisists not in the increased value of farming land-(hear, | deration of their Chartist brethren." Mr. O'Connor then addressed the meeting upon the services performed by the Evening Star newspaper, and reminded them that Huddersfield had undertaken to raise £1,500 to enable him to establish a daily paper; and why now refuse their support to one in which he could have no selfish motive; one possessed by one of the most honourable, amiable, and gentlemanlike young men he had ever had Mr. HODGSON, one of the four delegates to the first the good fortune to meet. Why not rally round him who was losing £72 a-week by his advocacy of their cause? (Cheers, and "We will.") Aye, but do it. LEEDS .- On Sunday afternoon and evening, Mr Fraser lectured to large audiences in the Chartist Room, Cheapside, when 11s. 01d. was collected for Mrs. Ellis. Persons who may feel inclined to give anything towards this landable object. will be kind enough to bring it to Mr. Brook, treasurer for this fund. It is the duty of every Chartist, but more especially those who by their situation can afford it. to do something towards assisting those who have suffered in their cause-let all, then, who can, come forward immediately, so that Leeds may not be behind in this holy work.

THE COUNCIL met on Sunday morning, and by djournment in the evening, after the lecture, when the sub-secretary brought forward Mr. Cooper's plan of Organization : he likowise read the article in the Star relative to it. A resolution was moved. deciding against its adoption in its present form, and stating that the present plan, with a few im, appointed where the Executive should meet th transact business, and that printed copies of tee. to twenty-five hands or more. Now, where are they? such vile and deceitful impostors.

NEWCASTLE .- The pitmen of Kenton Colliery summoned their employer before the Bench of Magistrates in Newcastle, for a breach of agreement. It was ably shown by Mr. Lockie Harle, (the solibond the men were entitled to work at which they whereas the men were deficient in the amount to remunerated for the loss they have sustained. The solicitor for the defendant in his defence admitted that the men had sustained a loss, which he thought they were entitled to have indemnified, but not to the extent that they claimed. The Justices retired to consider, and returned it as their opinion, that the men had sustained no great loss by the wages being kept off, and therefore dismissed the case. The employer sat on the Bench as a magistrate

rish to interiers with Mr. O'Connor's judgment: he has u much right to his opinion as I have to mine. To his mitician on my mode of expressing my opinion of the Encuive, I have no reply to make: I am a plain ma and call a spade a spade. But though I respect Mr. OConnor as much as any man onght to respect him, I mper you and the cause of Chartism still more; and lumst beg that in this matter, which is most essential ind important to your interests, you will not permit your remoral regard for him to blind you to the merits of the one: that you will form your own judgment by the facts and by the evidence and not by the opinion of any man. I have never asked you to take my opinion upon any have done, to form your own judgment of the case upon its own merits, independent of any other consideration whatever; and I blame you for not having, long since, defivered that judgment so generally and so conclusively, uto preclade further bickering.

There is much in Mr. O'Connor's letter to which it the report of the meeting called by the Executive :-will be very easy for me to reply ; but I have no deinto keep up the jar. I have never had any such Is s first by fair argument, simple explanation, or arquiescence or if the acquiescence of "the Editor and at Leeds" or of the other parties, in his suggestion bishy false counter accusations, there would never amounted to more than this :-- Mr. Cooper suggested the her ben any jar at all; the whole matter would have In hame of its not having been so, belongs not to me, hip those who found it more convenient to keep up he to sy that I think Mr. O'Connor's strictures on thear, hear, and cheers. Now will Mr. Cooper say Mr. John Watkin's letter much more unnecessarily when than anything that Mr. Watkin's has written wint the Executive. Mr. Watkins is a man who has the much service, and endured much suffering in the ane. I know no man in the whole movement who hagiren more decided evidence of his thorough dereadness to Chartism than John Watkins. I know no In in the whole movement more fully entitled to the People's good opinion and their thanks. I know no has in the whole movement who has preserved Broughout his whole career a more stern honesty, and a more strict and honourable adherence to principle and consistency than John Watkins. I do not say that his opinions are, therefore, entitled to any other weight than that which they may have from the reasons spon which they are founded; bet I do say that these things enght to induce us to examine those resor the expression of his opinions.

I am as tired of seeing the discussion in the Star as En O'Commor or you can be. I had closed the columns in private, and then by a simultaneous public assault !! of the Stor against its further continuance some weeks In This did not suit the Executive. Their friends abused me for it; and they themselves procured them to be reopened for it, by applying te Mr. O'Connor and thaining his pledge to that effect, at Birmingham. 1 h giving that pledge; but when informed by himself at he had done so, I did not choose to give cause for "I live have been, to have done with it. I have done my daty in it; and I have done no more than my duy. The duty was a most unpleasant and a painful the; but it was a duty, and I have done it. I cordially Concur in the opinion of Mr. O'Connor, that it is time for his week repress the publication of several communitions, one of them a most important and argumenaire letter, which I have had by me some weeks, and of the Councillors contains these words :be which has written to me three times, re-

what it did refer to. For some reason best known to tage of. himself, Mr. Cooper did not think proper to do this. In order that the people may have the whole merits tists, Mr. O'Connor visited the town on Friday last, However, when plainly asked the question by Mr. of the whole question of this Executive business fairly the expenses of sending those delegates had been taken. THE WHOLE HOG CHARTIST BRI-GADE OF SUNDERLAND.

On the morning of Friday, the 20th, large bills appeared on the walls of this town, announcing a public meeting, for the purpose of taking into consideration the charges made against Mr. James Williams, by Feargus O'Connor, Esq., in the Evening Star of the 3rd, and repeated in the Northern Star of the 7th. of this month. The meeting was called with a penny admission in the Athen sum Lecture Room. By the terms of the bill a vote of censure was to have been passed on Feargus O'Connor, Esq, but, alas, for the uncertanty of all human nor, Esq, but, alas, for the uncertainty of all numbers accordance with the principles of the Charter ?- was in the habit of giving such speeches and lectures, charge, which were highly unconstitutional, and proved host; the Charrists on the first appearance of the bills (great cheering). met in their Council Rooms, Robinson's Lane, to make 2772, 10 ments for defending their brave leader. All thin. - seing settled to their matual satisfaction, they sternly awaited the tug of war on Monday night, and to their great delight and satisfaction. two of their brother hogs, Messrs. Con Murray and Samuel Kidd, arrived from Newcastle at tour o'clock in the afternoon. On their names being announced in the Council Room, all was joy and gladness, and it was at once agreed that Mr. Kidd should appear against Mr. Williams, as the friend of O'Connor. We should also have said that the Chartists sent a deputation to Mr. Williams, requesting him to allow the poor working men free admission, as some thousands had no zenny to pay. They contended that the public character of U'Connor was the property of every Charlist, and before he should be put on trial, it would be only justice that all were allowed to be present. The deputation offered to pay the half of the expenses of the hall, if Mr. Williams would pay the other half, this he would not accede to, and hundreds of our best and bravest men, through poverty, were kept without the building, and the hall filled with those only who could pay their pennies.

Having now sketched the previous proceedings in as short a manner as possible, we proceed to give a candid, fair, and impartial report of the meeting and discussion.

Long before eight o'clock, the hall, which is capable of holding 500, was densely filled in every -corner.

Mr. WILLIAMS arose and proposed that Mr. Knot. a working man, should take the chair. (Loud cheers).

Mr. HESKETH REILLY proposed, as an amendment, that Mr. John Chalk, another working man, and one of the Council of the whole hog brigade, should take the chair. This amendment was received with tremendors thunders of applanse and loud cheering, which lasted for several minutes.

Mr. RELLY then took a show of hands for Mr. Chalk, when, to our judgment, two-thirds of the meeting voted for him.

Mr. WILLIAMS next for Mr. Knot, when about 150 supported him.

Mr. CHALK, on taking the chair, remarked that it was well known to the audience that he was not a speech-maker, and would not therefore waste their time longer than by calling on every man in that room, no matter what were his individual opinions on the subject about to be discussed, to give a fair hearing to both speakers; nothing elicited truth so well as a fair discussion. If they did not hear all good order. After thanking his brother Chartists for that mark of their confidence and respect, he sat down amidst loud cheers.

Messrs. Williams and Kidd then entered into the following arrangements:-Williams to take fifteen minutes in opening the discussion, and proving O'Connor's charges to be false. Kidd, fifteen minutes in defending O'Connor, and proving his

Yours in the cause of freedom, Newton Stewart, ROBERT SOMERS. 27th Jan., 1843.

We give this letter with much pleasure. The fact that Mr. Somers remained with the Conference after the secession of the Sturgemen was not known to us, and we wrote under the impression that he had gone with them : which we think would have justifled the inference we drew. That fact establishes Mr. Somers's exemption from any unfair party bias, and his claim to the title of an honourable independent man. We think Mr. Somers is in error about the proposal of Mr. Lovett. We believe Mr. Lovett's proposal was made to the Council of the Complete Suffragists before the resumption of the debate on the morning of the second day, though the announcement of it to the Conference was not made till the close of the debate.-ED. It is the first popular manifestation in England made in favour of the Polish cause without any previous Polish exertions to that effect; and as its views on the subject are incomparably purer and more correct than those of all the speeches ever pronounced in the British senate, or at all the meetings of the so called 'Literary Association of the Friends of Poland,' it will prove to every one that even in England it is not through diplomatic duplicity, but through sincere exposition of our principles, in all their extent, that we can gain the sympathy of the people at large, to whom, and to whom only, we have the mission of addressing ourselves in the name of our nation as if is the destiny of the people at large to pronounce ultimately in all such questions as that of Poland."

### TO THE EDITOR OF THE NORTHERN STAR.

SIR,-In your paper of the 24th of December last, is reported the particulars of an inquest held before Mr. George Dyson, coroner for Halifax, and a Jury at Waterbead Mill, in Saddleworth, on the body of Lucy Milligan. The Jury, in their verdict, found that she died by the visitation of God, accelerated by the want of earlier medical attendance and proper attention and sufficient nourishment, and that they strongly censured the conduct of the overseers and officers of the township of Spotland, in not ascertaining the situation of the deceased, after repeated representations.

The overseers and vestrymen of Spotland are desirous to remove the stigma that is cast upon them and to fix the blame, if any, upon those who ought to bear it. The township of Spotland is distant many miles from Saddleworth, and the Jury seem to have been ignorant that it is the duty of the parish officers of the township in which paupers are resident to administer to their wants, and communicate with the overseers of the township in which they are settled; if this were not so the overseers would be obliged to travel a number of miles and neglect their own poor.

No official communication was made to the overseers of Spotland of the real situation of the deceased, as appears by the evidence before the Coroner and Jury, until the 13th of December last, when assistance was promptly rendered by them. An illegitimate child of the deceased was affiliated by magistrates in petty sessions withdraw his own amendment, and adopt mine, pro- at Rochdale, on Monday, when the circumstances relating to the death of the deceased came before them, and it

## AN APPEAL TO PATRIOTISM AND HUMANITY.

## BRITISH PATRIOTS IN FRANCE.

We have received, along with a contribution to the Victim Fund, the following from a few English operatives resident at Bologne-sur-Mer :---

SIR,-Though far from our native land and the men we love, we feel deeply interested in the mighty struggle for the rightful liberty of the industrious classes; and glory in the sure and steady progress of the principles of the People's Charter. We feel highly satisfied with the decisive stand which our Chartist brethren made in favour of the Charter at the late Conference in Birmingham. We are very much pleased with the bold and uncompromising conduct of our esteemed friend Mr. O'Connor, in defence of his moral character, (which some of his enemies of the Corn Law League have tried to injure,) and the great principles which he has so worthily, faithfully, and successfully advocated. We heartily sympathise with our suffering brethren, and wish that those who are engaged in the cause of Chartism, which is emphatically the poor man's cause, the cause of humanity, justice, and truth, may be strengthened and encouraged by all who love their country and desire that corrupt and oppressive systems may be swept at once and for ever from the society of men, and laws and commerce based upon the sacred and inviolable rights of the people. Though circumstances arising from classlegislation and unequal rights have driven us to seek bread for our wives and children in a foreign land. we feel united with our brethren in the good cause, and if we cannot be with them personally in the field of contest, and certain victory, they have our hearts, our wishes, our prayers, and as far as we are able, our pecuniary assistance. Our hearts say success to the Charter and to all who are fighting for it. May the Charter soon become the law of the land, and every working man be free; and then the emancipated slaves of Britain will mean what they say, when they sing :--

" Britons never shall be slaves."

heart-rending appeal of these perishing creatures with offensive to none. contempt. A county meeting was held at Hamilton on Monday, to which a deputation was sent with a petition, in the hope that the " noblemen and gentlemen" of the county might grant what Provest Campbell had refused ; but here they met with similar treatment. Application was made to Lord Belhoven, (who occupied the chair in the absence of the Duke of Hamilton,) stating that a deputation, with a petition from the starving operatives of Glasgow, were waiting outside, craving that they might be allowed to lay the same before "their honours." The communication was considered, but "their honours" did not deem it to be their duty to convey to the deputation their decision thereon. The deputation, after waiting near four hours, had to walk home ten or twelve miles, in the midst of a severe storm, without even an answer. These county nabobs had met for the purpose of considering the propriety of establishing a strong county police, therefore they declared it to be " out of order" to consider the petition from the starving peeple of Glasgow. In the meantime the unemployed have entered into a survey of the whole city, going from house to house and taking down the names, address, place of nativity, age, trade, how long out of employment, if married, what number of family, &c. de., of all the destitute persons, male and female. When this picture is finished, we promise the abetters of the system they shall have a petition presented to them which they will not relish, nor treat with silence.
