

# The Northern Star,

## AND LEEDS GENERAL ADVERTISER.

VOL. I. No. 51.

SATURDAY, NOVEMBER 3, 1838.

PRICE FOURPENCE HALFPENNY,  
OR FIVE SHILLINGS PER QUARTER.

### LOST.

FROM A Field in front of Castleton Lodge, Armley, on WEDNESDAY NIGHT, or THURSDAY MORNING, the 24th or 25th instant, (supposed to be stolen,) A DARK BROWN HORSE PONY, Fourteen Hands high, free from white: switch tail; clipped legs; many white warts on his nose; a speck on the off-side eye; was without shoes; and had tips on his fore-feet. Whoever has found the said Pony, and will bring it to Mr. WILLIAM WAINMAN, of Armley, shall be well rewarded. If stolen, a Reward of £5 will be paid on Conviction of the Offender or Offenders, on Application to Mr. READ, Chief Constable.

Leeds, October 29, 1838.

1st Published, containing 100 pages, closely printed, Demy 8vo., price Sixpence.

### HANNAH & DIERICHSEN'S ALMANACK,

COURT REGISTER, AND BOOK OF GENERAL INFORMATION FOR THE YEAR, 1839.

THE following opinions of the press, of this Almanack, for the past year, are given to exhibit in some measure the character of the work. Stimulated by the very large sale obtained, the Proprietors have added 28 pages additional for the next year, forming in the whole 100 pages. In addition to the matter contained before, there is given a Chronological Summary; the Army List is given alphabetically, and an alphabetical List of the Royal Navy is added; also, the Queen's Household is given in full, and the whole of the other matters have been re-arranged, so as to render it as complete as possible.

"This is by far the cheapest as well as one of the most useful Almanacks that we have yet seen, it contains 72 large Octavo pages for Sixpence, and is peculiarly adapted for Country circulation from the nature of its contents. It may be particularly alluded to the full List of Fairs and Provincial Banks. The daily notice of Astronomical Phenomena is a very valuable feature."—*Gloucester Chronicle*.

"A new Almanack, containing a mass of general information on a variety of subjects—historical, chronological, legal, political, military, commercial, and agricultural, and eminently superior in its astronomical department—has been published by Messrs. Hannah & Dierichsen; at a price not, scarcely less remarkable than the publication itself."—*Illustrator*.

"This is without exception the cheapest book ever sent—72 closely printed octavo pages for sixpence. To specify its contents would be to waste space. To say it is complete, seems to contain almost every thing an Almanack can have, and in the astronomical department stands unrivalled."—*True Sun*.

"Hannah & Dierichsen's Almanack and Book of General Information for 1839, is a remarkably handy, and contains more minute and extensive information about the heavenly bodies than almost any other work we know. But it is also a general volume of useful intelligence, such as, on domestic and business affairs, we continually need reference to."—*Bain Gazette*.

"This Almanack, is the cheapest and most comprehensive publication of the kind which has ever come under our notice. It contains a mass of useful matter, extending to 72 closely printed pages, to be sold for sixpence, we are proud to know. This Almanack can hardly fail to have a most extensive circulation."—*Black Chronicle*.

"Having occasion to refer to the recently issued Almanack of Hannah & Dierichsen, we were more forcibly struck than on a former inspection, by the immense accumulation of valuable variety of intelligence comprised in its pages, and by its palpable superiority, in extent of useful information, correctness and arrangement, over all that compete with it. Its lists, accounts, and calculations, whether military, legal, political, commercial, chronological, meteorological, or (above all) astronomical, are most ample and accurate, and constitute its chief production of the season."—*Leeds Journal*.

"How this work consisting of some 70 pages and printed in small type, can be sold at so cheap a rate, completely precludes the time and labour required to collect such a mass of useful information, must have been very great, and cannot possibly be remunerated save by a large sale. Besides the usual items of an Almanack, we have a Chronology of remarkable events, the Queen's Household, the Commons, Land Forces, the Universities, Banks, &c. &c. The List of Fairs, is by far the best that ever was printed."—*Weekly Magazine*.

Published by Hannah & Dierichsen, 63, Oxford Street, London.

PRICE SIXPENCE, and may be had of all Booksellers, Stationers, and News-vendors in the Kingdom.

### MESSRS. PARKER & CO. SURGEONS,

(Members of the Royal College of Surgeons, and Licentiates of the Apothecaries' Hall, London.)

HAVING devoted their studies for many years to the successful TREATMENT OF THE VENEREAL DISEASE,

In all its various forms, gonorrhoea, gleet, seminal vesicles, and strictures, eruptions and nocturnal pains, so frequently mistaken for scurvy and rheumatism, also, to the frightful consequences resulting from that destructive practice, "Self Abuse," may be personally consulted, from 9 till 12, in the morning till 10 at night, and on Sundays, from 9 till 2, at their residence.

No. 27, ALBION STREET, LEEDS,

And country patients requiring their assistance by calling only one personal visit, will receive such advice and medicine, which will enable them to obtain a permanent and effectual cure, when all other means have failed.

Where an early application is made for the cure of a certain disease, frequently contracted in a moment of inebriety, the eradication is generally completed in a few days; and in the more advanced and inveterate stages, the most distressing symptoms, arising from a variety of painful and distressing eruptions, a perseverance in their plan, (without restraint in diet or exercise,) will insure to the patient a permanent and radical cure.

It is a melancholy fact that thousands fall victims to this horrid disease, owing to the unskillfulness of ignorant men, who by the use of that deadly poison, mercury, ruin the constitution, cause ulceration, blotches on the head, face and body, dimness of sight, noise in the ears, deafness, obstinate gleet, sores on the skin, blenorrhoea, sore throats, and, in some cases, with nocturnal pains in the head and back, all at length a general debility and decay of the constitution ensues, and a melancholy death puts period to their existence.

PARKER'S RESTORATIVE PILLS, Price 2s. 6d. and 11s. per box.

Is very well known as a certain and effectual remedy for every stage and symptom of the Venereal Disease, without confinement, loss of time, or hindrance from business; they have effected many surprising cures, not only in recent gonorrhoea and blenorrhoea, but when salivation and all other means have failed.

In those dreadful cases of sexual and nervous debility, brought on by a solitary indulgence in forbidden practices, and which weakens and destroys all physical and mental powers, occasioning melancholy, deficiency, and the necessity of renouncing the pleasures of marriage, aggravated by all the horrors of remorse, Messrs. Parker and Co. can with confidence offer as regularly educated members of the medical profession a safe and speedy restoration to sound and vigorous health.

Messrs. Parker and Co. may be personally consulted from Nine in the Morning till Ten at Night, and will give advice to persons taking the above, or to others of their preparations, without a fee. Attendance on Sundays from Nine till Twelve, where Medicines can only be obtained, as no Book, Druggist, or any other Medicine Vender is attended with them.

General letters, post-paid, containing a remittance of Money, will be immediately answered. 7, Albion Street, Leeds.

### VICTORIA LIFE ASSURANCE AND LOAN COMPANY,

No. 18, KING WILLIAM-STREET, CITY.

CAPITAL £500,000.

Every accommodation and facility will be afforded for the transaction of business, between the hours of Ten and Four o'clock.

EDWARD BAYLIS, Actuary.

### NORTH LANCASHIRE RADICAL DEMONSTRATION MEETING,

TO be held at PRESTON, on the FIFTH OF NOVEMBER, 1838, on PRESTON MOOR, for the purpose of considering the propriety of adopting the PEOPLE'S CHARTER, and for electing DELEGATES to the NATIONAL CONVENTION. The following gentlemen have been invited to attend: viz. JOHN FIELDEN, Esq., M. P., F. O'CONNOR, Esq., the Rev. J. R. STEPHENS, Dr. L. B. CHURCH, and several other tried and sincere Advocates of the Rights and Interests of the People.

Messrs. of North Lancashire! The bonds of Oppression must be rent asunder. "Now" is the day, and now is the hour. Slavery must not continue unopposed here. The voice of the people hath been heard, and proclaimed the downfall of corruption. The good men of Manchester have made the enemy fear—they have nobly done their duty. The friends of Freedom, in every corner of the nation, are up and doing; and let it be known on the Fifth of November, that the men of North Lancashire are also their countrymen's, and their countrymen's interests. On the day let every man be at his post, and boldly do his duty.

We, the Committee of the North Lancashire Radical Association, do sincerely call upon all real friends to the cause both in Preston and its Neighbourhood, to be on hand on that day.

The Meeting to take place at Eleven o'clock in the Forenoon.

(Signed) JAMES MURPHY, Secretary.

P. S. The Meeting, originally, intended to take place on the 22nd October, as mentioned in the Northern Star of last Saturday, is postponed until the 5th of November, in consequence of its clashing with the Wigton and Colne Radical Association Meetings.

### LEEDS SOKE MILLS.

AT A PUBLIC MEETING of the Proprietors of E-state within the Township of Leeds, and lying within the Limits of the Soke of the Queen's Mills, convened by the Mayor, (pursuant to a Resolution passed at the Court House, on Wednesday, the 31st of October, 1838,

IT WAS RESOLVED,

1. That the Claim of Suit and Sake, made by the Owner of the Queen's Mills in Leeds, is injurious to the Property within the Manor, and vexatious to the Traders and Inhabitants of Leeds in a greater degree than it can be profitable to the Owner of such Mills, even if the right to enforce it were undisputed.

Moved by THOS. ENGLAND, Esq. Seconded by J. H. HILL, Esq.

2. That without expressing any opinion on the validity of this Claim, but having regard to the propriety and Expediency of a Litigation which has hitherto been carried on between the Inhabitants of the Manor and the Owner of the Mills, and which has recently been renewed by the Establishment of this Meeting, it is of opinion that it is highly desirable to satisfy all such Claims by a fair Compromise with the Owner.

Moved by THOS. ENGLAND, Esq. Seconded by J. H. HILL, Esq.

3. That this Meeting learns with pleasure the willingness of Mr. Hudson, the Owner of the Mills, to effect such Compromise; and that, in order to the proper mode of raising the Funds requisite, will be by an assessment on all Rateable Property within the Manor, provided an Act of Parliament can be obtained for that purpose.

Moved by WM. ALDAM, Esq. Seconded by Mr. ATKINSON.

4. That in case a satisfactory Agreement is accomplished with Mr. Hudson, application be made to Parliament in the next Session, for an Act to carry such Agreement into effect, and to raise the Money required by an Assessment in such way as shall be framed by a Committee now to be nominated and approved by a Meeting to be hereafter held of the parties interested.

Moved by Mr. JAS. HARGREAVES. Seconded by Mr. JOSEPH SHACKLETON.

5. That Messrs. Edward Baines, Joshua Benn, John Beckwith, J. Brownridge, Jas. Baldwin, John Croft, John Hodgson, Thomas England, John Forster, James Hargreaves, John Metcalf, Wm. Naylor, George Nisbet, T. Old, J. Summerville, Jeremiah Scott, Charles Scarborough, Simon Spenceley, John Scott, Peter Wadman, Wm. Walker, John Walker, be a Committee for the purpose of treating with Mr. Hudson, and to prepare a scheme for carrying out the measure, and afterwards to conduct the same through Parliament, with power to add to their number, and that Five be a Quorum.

Moved by Mr. DAVID METCALFE, Seconded by Mr. GEO. NUSSEY.

6. That a Guarantee Fund to meet the Expenses of the proceedings be provided by Voluntary Subscription, to be repaid out of the First Monies received under the Act.

Moved by Mr. ATKINSON, Seconded by Mr. EDDISON.

7. That Messrs. Atkinson, Dibb, and Bolland, be the Solicitors to the Committee, and to Conduct the Bill through Parliament.

Moved by Mr. EDDISON, Seconded by Mr. SUMMERSGILL.

8. That these Resolutions be Advertised Twice in each of the Leeds Newspapers.

Moved by Mr. THOS. HILL, Seconded by Mr. SHACKLETON.

(Signed) T. W. TOTTIE, Chairman.

The Mayor having left the Chair, it was taken by Mr. Baines, M. P., and on the Motion of Mr. Hill, the unanimous Thanks of the Meeting were given to the Mayor, for his able and patient conduct on the occasion.

### THE TRUE SCOTSMAN, AN EDINBURGH WEEKLY RADICAL NEWSPAPER.

It is the fearless Organ of the Movement. Universal Suffrage is the Basis of its Politics. It will show at all times the State of Radicalism in Scotland; and issuing from its great Metropolis, it will be a powerful Engine for supporting and promoting the great National Struggle for Liberty. No. 3 is now Published. Every Working Man's Association in England should get a Copy. Price 1d., or 5s. per Quarter. No Credit. Any of the Edinburgh Radical Newspapers will take Orders. Published by J. Fraser, 6, North Bank Street.

### AMBERSWOOD COMMON MEETING.

### RADICAL DEMONSTRATION.

A PUBLIC MEETING of the Inhabitants of AMBERSWOOD and the surrounding Districts, will be held on AMBERSWOOD COMMON, on MONDAY, the 12th of November.

FEARLESS O'CONNOR, Esq., Rev. J. R. STEPHENS, Dr. FLETCHER, and other influential Radicals, are invited to attend.

### MINERAL TERRA METALLIC.

For filling Decayed Teeth, without heat, pain, or pressure; and Incurable Mineral Teeth fixed without giving the least pain, or sheathing any fastening whatever.

### LEEDS AND Huddersfield.

### MR. ESKELL,

Surgeon Dentist, of No. 124, Park Row, Leeds.

RESPECTFULLY announces that he is on the 1st of November, for the purpose of attending to the better accommodation of his friends; has made arrangements to attend that place; and may be consulted in all the branches of DENTAL SURGERY as follows, until further notice:—

### EVERY WEDNESDAY AND THURSDAY,

AT MRS. BENNETT'S, YORK PLACE;

And on MONDAY, TUESDAY, FRIDAY, and SATURDAY, at his Residence, 124, Park Row, Leeds.

### INCORRODIBLE MINERAL TEETH,

From one to a complete Set, which are not only Indestructible, but also incapable of Discolouration.

Among the advantages of Mr. ESKELL'S System, one of the principal is, that it confers the powers of the most distinct articulation, and submits to as really an advantage of the utmost importance; but when to it is added the capability of biting the hardest substance, without pain; though last, not least, that it gives the appearance of juvenility to countenances of an aged appearance, and may be worn by the most delicate and young.

MR. ESKELL wishes to impress upon the Ladies and Gentlemen not to have the least prejudice against his Artificial Teeth, for they are both useful and ornamental. His principle is quite different to any other—it conduces to both beauty and comfort.

A new position of MINERAL TEETH, that closely resembles nature. The Mineral Teeth, recently perfected, offer a superiority, that can be proved, over the various substances offered to the Public for similar purposes. Their colour is unchangeable; and they may be had in every gradation of shade, to suit any that may be remaining in the mouth. In point of economy, the Mineral Teeth will be found highly advantageous to the wearer, as in durability.

MR. ESKELL avails himself of this opportunity to explain the various species of Disease to which the mouth is liable, according to the principles laid down by the most eminent medical men, convinced that an important condition is, a personal appearance cannot fail of being interesting.

SCALING THE TEETH.—This operation, when performed by a skillful Dentist, causes not the least pain; and is effected in order to preserve the Teeth from tartarous effluvia, to keep them pure and white, and to free the breath from any unpleasant odour. This operation should be taken place occasionally.

CAUTERIZING THE TEETH.—This operation is had recourse to upon the first symptoms of decay, in order to arrest the progress of disease, and which, provided it be done in due time, prevents that acute pain followed by ultimate extraction.

FILLING THE GAPS OF DECAYED TEETH.—This operation is simple in itself, and causes no pain, and entirely prevents any portion of ailment or foul air from entering the cavities, the general source of offensive effluvia.

SEPARATING OF THE TEETH.—The Teeth, from want of proper attention, are apt in most persons to close and connect themselves with each other, which is generally the chief cause of decay. In such cases, it is particularly advisable to separate them.—Great care is required in this operation.

FASTENING LOOSE TEETH.—Mr. E. during his course of study, has adopted a mode of fastening loose Teeth, particularly of aged persons, whether arising from neglect or any other cause, which he is happy to say, has proved successful to the full extent of his expectations.

REGULATING THE TEETH.—It is well known that Teeth will often grow too long, and outstretch each other, sometimes protruding themselves beyond the bounds prescribed by the circular formation of the mouth, which greatly adds to the appearance of the countenance, in the laugh, and gives facility to the articulation. The beauties of a well-regulated set of Teeth are so generally acknowledged, and admitted, that to offer further observation on this head would be superfluous.

FIXING ONE OR MORE TEETH.—The method adopted in this process of replacing Teeth, renders it impossible to discern the artificial from the natural, without wire spring, or showing any fastening whatever.

EXTRACTION OF THE ROOT, OR THE FANGS OF THE TEETH.—Although this operation is often dreaded by the afflicted, from the facility which characterizes the performance of his operation, Mr. E. has been most successful in removing all fearful apprehensions.

FIXING COMPLETE SETS OF TEETH.—Complete Sets, by the assistance of a newly invented spring, which operates with the action of the jaw in mastication, &c., will be found, in every respect, amply competent to supply the place of their predecessors.

Attendance from Ten till Five, at Mrs. Bennett's, York Place, every Wednesday and Saturday, for a consult.

August 18, 1838.

### EXTRAORDINARY CURES OF BLINDNESS.

MR. BLAND, Middleton Field, Bradford, was nearly in darkness, from Amaraurosis, and had been so for some years—can now see to read small print.

Mr. Woods, Bradford, was nearly in darkness for ten years—can now see to thread the smallest needle.

JOHN FRITH, George-street, Bradford, Blacking-Hawker, was nearly in darkness for twelve years—can now see to go about the town alone, without an inconvenient assistance.

THOMAS MALONS, of No. 146, Mill Bank, Bradford, was in total darkness for nearly three years. After having been discharged from the 31st Regiment, in consequence of blindness, he was admitted into several Hospitals, but was turned out of the most eminent Clinics in London, but was declared by him to be incurable.

MISS WOODCOCK, of Peterborough, was blind for two years. Went under the care of several eminent men, but got no relief. Can now see to read the smallest print.

Mrs. MASON, Cannon-street, Old Foundry, was blind of Amaraurosis, but can now see to thread the smallest needle.

Mr. GRICE, of Langtoft, near Malton, was totally blind of one eye, and the other much affected. Completely restored.

Mrs. HAWKINS, Wife of J. Hawkins, Paper Hanger, Tappet-street, Hull, was blind for fifteen years; so much so that she could not see me when I examined her eyes; was attended by the first Medical Men in Hull, and was desired by two eminent Physicians never to allow any one to do anything at her eyes again, as no earthly power could be of service to her.

Mr. PECK, No. 3, Paragon-street, Hull, was blind for ten years of the West Indian Ophthalmia, was attended by several of the first Medical Men in the Kingdom.

CHARLES THEAKER, son of Wm. Theaker, in the employ of Mr. Metcalf, Gainborough, was blind for three years; was under the care of eminent Medical Men nearly two years; afterwards attended the Dispensary in Gainborough, for eighteen months, but got no better. Dr. Peacock got him into the Infirmary, Hull; he was there three months, but received no benefit. When he came to me he was in complete darkness with one eye, and the other in a dreadful state of inflammation.

CHARLES BINKINGTON, Lovell's Entry, Whitefriargate, Hull, had been gradually going blind for twelve years, was attended by four of the first Medical Men in Hull—can now see to read the smallest print.

MISS JACKSON, of Sherburn, near Milton, was blind, and had been attended by two of the first Medical Men in that part of the country, and declared by them to be incurable.

Mrs. WEATHERALL, Burlington, blind for several years; was under the care of an eminent Physician at Leeds, and many others.

MARY GREEN, the Wife of a Shoemaker, in the 30th Regt., blind for six years; was under the care of several Medical Men, and attended at the Hull Infirmary Three Months, but got no relief.

MARY WELBURN, of Burlington, a young girl, eight years of age, blind six years.

JAMES LEUTED, Commerce-lane, Pottery, was in complete darkness, and had been so for a long time, was attended by several Medical Men; was also an out-patient of the Hull Infirmary for some months.

MATILDA PRICE, Beverley, a little girl, four years of age, blind; was attended by eminent Medical Men at Beverley, but got no better; was sent to Hull for better advice, which I am happy to say she got.

JOHN POLLAN, an inmate of the Whitefriargate Workhouse, Hull, was in complete darkness with one eye, and the other much affected; was attended by a Medical Man, but got no relief.

Mrs. HUSTWICK, Lingard's Court, Old Dick, Hull, late of Gainsborough, was in complete darkness.

JOHN DAVIDSON, Hunt's Place, Pottery, was in complete darkness when he came to me, from getting a piece of iron in one eye; was attended by a Medical Man who declared, both before and after the iron came under my care that his sight was completely destroyed and lost for ever; got his sight in one week.

SERGEANT PALMER, 30th Regiment, blind, and THOMAS GILLET, 30th Regiment, blind; both lying at Sunderland.

The above Cases will bear me out in what I said in my first case to Hull—that if persons would come to me before they go to any destructive applications, there would scarcely be such a thing as blindness known.

I have only been in Hull Ten Months, and I have brought Seventy-four Persons out of darkness.

In order to prevent a great deal of trouble to myself, and unnecessary expense of postage to those who wish to come under my care, I have determined to visit Hull, as follows:—

There is no external disease that the Eye is inclined to, but what I can cure, such as cataracts and scums. In cases of inflammation I pledge myself never to fail. Cataracts I cannot cure, but can prevent them if I have the patient in time. On Amaraurosis I can cure seven cases out of ten; and all if they would come to me when they first perceive the dimness in the eye coming on.

This statement, as well as the above cases, will, I have no doubt, appear to persons at a distance, quite improbable; therefore, I would advise any one wishing to be cured, to come to me, to lose no time, but come in and see the patients themselves.

MR. CHILD will attend the following Towns, where he may be consulted from Ten to Four o'clock on the Days specified, viz.:

Sheffield, on Tuesday, Nov. 6th, at Miss Taylor's, 13, Carver Street.

Barnsley, on Monday, Nov. 12th, at Miss Rogers, 15, Pitt Street.

Wakefield, on Thursday, Nov. 15th, at the Ball Inn.

Bradford, on Friday, Nov. 16th, at the Swan Inn, Market Place.

Halifax, on Wednesday, Nov. 21st, at the Boar's Head, Southgate.

Manchester, on Wednesday, Nov. 28th, where Mr. C. will remain for about Three Weeks.

The Place of Residence in Manchester will be duly advertised.

The Remedy is of the simplest kind, it requires no restriction as to diet or regimen, bleeding and blistering is not necessary, and it may be administered with perfect safety to the tenderest infant.

MR. STYAN

BEGS leave to acquaint the public generally, that he has various stages, without restraint of diet or hindrance of business, at 10s. to one guinea each, for the worst of cases, or the one who had rather, can have medicines from 1s. to 2s. 6d. a time, as convenience suits them; recollect the

Venerable is not cured with a mercury pill, I have often said so, and I say so still.

Also bottles made up for rheumatism, coughs, colds, asthma, bad breath, wounds, piles, pain in the back, stomach, and head, never failing remedies if properly persisted in, the cures they have performed in Leeds within the last ten years, each bleeding and teeth very carefully extracted, also teeth regulated and put to order upon reasonable terms. Family recipes made up at drug prices. All those who apply in person at this establishment, may rely upon being treated in a manner best suited to their respective cases, with the greatest secrecy and punctuality.

No. 1, 1, White Bridge, corner of bottom of Kirk-street, Leeds.

### TEMPERANCE HOTEL, AND BOARDING-HOUSE,

MYTONGATE, CLOSE TO THE HUMBER DOCK, HULL.

W. WARD, Successor to G. Wells.

BEGS respectfully to intimate to the Friends of Temperance that in the above Establishment, every possible Attention shall be paid under his own immediate Inspection to the Comfort of such Guests as may afford him the opportunity. Provisions of the best quality in abundance—Excellent and well-served Beds—elegantly furnished Rooms, and business, rendered the situation exceedingly convenient to Travellers of every description.

TEA and COFFEE always ready to be served up; Steaks and Chops at a few minutes' notice; Temperance Cordials of every description, and of the best quality.

Newspapers, Temperance, and other Periodicals, constantly on the Table in the several Rooms.

### VESTRY MEETING.

NOTICE IS HEREBY GIVEN, that a MEETING of the several Parishes Rated for the Relief of the Poor of the Township of Leeds will be held in the VESTRY of the Parish Church (St. John's) on THURSDAY next, the 8th day of NOVEMBER, 1838, at Twelve o'clock at Noon, for the Purpose of Electing SEVEN TRUSTEES, to assist in the Superintendence and Management of the Vagrant Office of the said Township of Leeds.

Workhouse, Leeds, Nov. 2, 1838.

JOSEPH THACKRAY, THOMAS HOLT, JOHN YEW DALL, JOHN MAIR, JOHN REPT, WILLIAM BEVERLEY, JOHN BENTLEY, THOMAS ANDERTON, MARY, JOHN, WALTER STEAD, Overseers of the Poor of the Township of Leeds.

This day is Published, in Royal 8vo., PRACTICAL OBSERVATIONS on the CAUSES and TREATMENT of CURVATURES OF THE SPINE, with Hygienic Directions for the Physical Culture of Youth, as a Means of Preventing the Disease; an Etching and Description of an Apparatus for the Correction of the Deformity; and an Engraving Illustrative of the Cause.

D-d-n-d by Permission to Sir Benjamin Collins Brodie

**MIDDLETON.**

mut, destroyed by the agency of the fiery which swept along the main workings with such velocity and stability, that the fire had reached on his face beside his horse in its stable of burned or disfigured, and had died of suffocation at the choke-jam. The bodies of the men, the deputy and the driver, were not eaten and night—the of Kay being far in the drift north, and Hetherington in the drift to the south. This leads us to the probable cause of the

craft of John Pitt, as we have stated, is 95 in depth. From the bottom of the drift, a of about two hundred yards in length, led to the Stair; here a drift three hundred length branched off to the south, and another of about two hundred yards in length, led to the north. The drifts, and the workings which branched from them, it was the duty, we repeat, of the deputy and the driver to examine on the morning, and ascertain that the drifts were free from foul air and danger. The body of the driver, Harrison Kay, was found, as we have stated, in the North drift, and the body of the Stair in the North drift. Now, as the force of the fire drove the poor men and boys who were at the Stair into the North arm of the workings, it is not unreasonable to suppose that the drifts from the North drift, where an immense quantity of hydrogen must have accumulated

Before, it is probable that the explosion and this presumption is strengthened by a statement of some of the workmen employed at the mine, who had providentially not arrived on the morning, when the catastrophe took place. They state that Kay was in the habit of carrying a lighted candle, which he used to

neglected candle along the drift, or main and used his Davy lamp only in examining workings. Taking it for granted that foul air unventilated in the South drift, the explosion traced to the rash imprudence of the miner.—The sufferers comprise seventeen men, thirty-three boys and youths under eighteen age. Six horses were also killed by the ex-

loss of property to Mr. Curwen will be heavy, mental suffering which this second great loss in his mines, within the short space of four months, will have inflicted, throws all pecuniary considerations into the shade. His distress of mind, we are told, is most intense.

---

### MARRIAGES.

On Saturday last, at our parish church, Mr.

day, at our parish church, Mr. Miss Jane Jilitt,

by the Rev. C. A. Binus, David Calvert, Thiorpbasset, to Jane, widow of the late Mr. God, vessel owner, of Malton. We understand more than one widow's heart will "leave the" at this event, though the parties are by no in the "Spring of Life," their united ages

above a century. They have also both of  
to use a common couplet,  
"For the *second time* in life,  
Enlisted in the *line*."  
e day, at the same place as the above, by the  
A. Bums, Matthew Pilmer, shoemaker, to
