PILLS. This medicine has been before the British public only a few years, and perhaps in the annals of the world way few years, and perhaps in the annals of the world way few years seen success equal to their progress; the virtues of this Medicine were at once acknowledged wherever tried, red recommendation : hunand recommendation followed recommendation; hundreds had soon to ecknowledge that PARE's LIFE PILLs had pense, by

eaved them, and were loud in their praise. The startling facts that were continually brought before the public at onceremored any prejudice which some may have felt; the continual good which resulted from their use spread their fame far and wide, at this moment there is scarcely a country on the face of the globe which has not heard of their benefics, and have sought for supplies, whatever might be the cost of transmission. The United States, Canada, India, and even China, have had immense quantities shipped to their respective constri's, and with the same result as in England - UNIVERSAL GOOD.

Communicated by Mr JORN HEATON, Leeds. Gentleman, -- I am happy to inform you that we are delly hearing accounts of the good effects of PARE's LIFF PILLS: to enumerate the cases would be a task too formidable for me, and which has prevented my writing to inform you before, as I can hardly tell where to begin. One man said he wanted a box of LIFE PILLS, for LIFE PILLS they were to him, they had done him so much good

in relieving him of an obstinate cough and astbma. Another said they were WORTH THEIR WEIGHT IN GOLD; as he was not like the same man since he had taken them.

A Christmas Garland.

WREATH II,

We commence the second part of our Garland with the following ADDRESS TO WINTER. Welcome, old Winter ! with thy forelock grey-

Thy snowy mantle, and thy wrinkles brow. Grasping the iron sceptre of thy sway, And laying nature's rural beauties low. Thou rid'st impetuous on the whirlwind's wing.

And storms and tempests usher in thy reign; Thy ioy breath congeals the murm'ring stream, That flow'd in sylvan sweetness through the plain.

Though scarce a sunbeam gilds thy gloomy day, And all around is desolate and drear ; Tet, Winter ! sill I love thy friendly sway, Which terminates the swiftly circling year.

I love to draw around the blazing hearth-To listen to the lacgh-exciting tale : To crown the fleeting hours with harmless mirth, While the rude blast sweeps hollow through the

vale. To read and parse upon the ample page,

Where knowledge opens all her store; To read the records of a fermer age;

Or learning's path se intricate explore. Season of social joy ! I hail thy reign! Imagination laughs at thy control; Thon can'st not bind her in thy icy chain ;

Thou can'ot not freeze the fervour of her soul, The year is fast drawing to its end. Another week and 1848 will be numbered with the past. Listen, then, to

THE YEAR'S LAST HYMN. BY JOHN SWAIN.

'Parewell, O earth ! ye sun and moon, farewell, And all ye stars-our parting is at hand : And now for ever shall I cease to dwell In the blue sky, on occan, or on land : Soon shall the living hear the midnight bell Peal forth mine exit from their mortal strand : Yet ere the light fades of December dim. Greatures of time, O list, the year's last hymn,

Men meet on earth, and part, and meet again : The tribes of octan go, and come, and go ; The blending clouds that beer abroad the rais. Divide above, but meet in streams below ; The rose that smiles in summer on the plain, D. cays and dies, yet lives rgain to glow; But as for me, O earth I my reign is o'er; We met to part, we part to meet no mere.

O earth ! farewell, another year of time Is added to the ages past and gone ! Thou spacious, blue, and starry vault sublime Wil: bend no more my silent course upon ! But earth, there is not on thy round a clime, Or home of men where light or life has shone, Whose darkest scorets are not all reveal'd,-All, as I pass, are copied, sign'd, and seal'd.

For as the fruit-the unripe or the ripe-Tells & true story of the parent tree,-As takes the sheet the impression of the type, And bears the record over land and sea ; Sc-fair or fcul-no mortal hand may wipe One jot away of things impress'd on me ;--Time's leaves afar the tidings true unfold, Soon as I vanish all the tale is told.

Hark ! there are footsteps on the steeple stairs : Tet ers the bells at midnight say farewell, Let it be told that worthy deeds, and prayers, For blessings upon men, where'er they dwell. Are seen and heard above ; and heaven is theirs

Who live for heaven.' - Just then the loud-toned bell, In wavy swells along the midnight toll'd ;-

Its use a crime, at sis a time, When neighbours meet t'gither, Though they agree, sae frank and free, To taste wi' ane anither, Then fill the glass, and let it pass To ilka cronie here ; Wo'll spend the night wi' true delight, And welcome in the year ! Oh ! wha will say that pleasure smiles But only on the great, When we can be as blythe and free As nobles o' the State. We canns' boast o' nobles' rank, Nor look sas proud and vain ; But we can say that what we have Is konestly our ain. Then fill the glass, &c. We dinna meet for love o' drink. Like ony :ap room pack; But we'll be pleased wi' reason's feast And friendship's social crack. We'll drink a health to absent friends. And may they soon be here; Hay truth and right aye conquer might Throughout the coming year ! Then fill each glass, &o. Though we has faults and errors too Which others might defend, We winne try to justify, Bat rather strive to mend ; And though our ensmiss are few, We'll strive wi' honest will By friendship's ctear, throughout the year, To mak' them fewer still. Then fill each glass, and let it pass To ilka cronie here : We'll spend the night wi' pure delight,

And welcome in the year ! Aberdeen.

Every one is on the watch to win the new year from the others; that is, to an. nounce the New Year First. Accordingly, the instant the city bell is heard to commence tolling, 'Prosst Neu Jahr !' starts from every one's lips; and happy is he who is acknowledged to have made the exclamation first, and to have won from all others the New Year. In every house, at that moment, all over the country, is shouted 'Prosst Keu Jahr !' prosst being no German word, but a contraction of the Latin prosit. On one eccasion, having retired to rest, our servants assembled at our room door, and awoke us, in order te cry 'Prosst Neu Jahr !' On the following morning, every one that meets you salutes you with the same ex clamation,

With the gles-wine are brought in, on a walter, the New Year wiskes of the family and its friends. These are written in verse, generally on very ornamental gilt note paper, and sealed up. When the 'Proset Neu Jahr!' has passed, and all have drunk to one another a Happy New Year, with a general touching of glasses, these are opened and read. For the most part they are without signatures, and occasion much guessing and joking. Under cover of these anonymous epistles, good hints and advice are often administered by parents and friends. Numbers of people, who never on any other occasion write a verse, now try their hands at one ; and those who do not find themselves sufficiently inspired, present orcamental cards, which have all kinds of wishes, to suit all kinds of tastes and circumstances, These are to be purchased of all qualities and prices, and those sent by friends and lovers, generally appear on New Year's Day, and are signed or not, as suits the purpese of the sender.

After the New Year's wishes have been read, a game of very old standing on this occasion is introduced, a game known to most people in England acquainted with old fashions ; that of the flour, the water, and the keys. Three plates are set on a round table is the middle of butter, 'preserves,' 'sweeties,' honey, eggs, ica, the room. In one is flour, in another water, in the whiskey, &c., &c. In the olden time 'a haggis' third a bunch of keys. The young unmarried people crowned the board, but this once national dish is are by turns blindfolded, and, walking round the table, now seldom seen. In the course of the day visitors pitch upon one of the plates. These have, of course, been shifted while the person about to try his or her chance, has been under the operation of blind folding, so as to occupy quite a different relative position to what they did before; or are sometimes shifted and then replaced, so that the person, naturally supposing that they have been changed, shall try to avoid the unlucky ones, Balls for the young folks, and social parties of by aiming at a new point, and thus shall actually have the married, the middle-aged, and the veterans and a greater obance of passing the lucky one. The lucky matrons, conclude the festivities of this chief of one is that containing the keys. Whoever gets that, is matrons, conclude the testivities of this chief of Scottish holidays. In Burns's tale of 'The Twa Dogs,' Luath, 'the ploughman's collie,' gives a fine description of the iown of a Scottish homestead on description of the jovs of a Scottish homestead on be married at all. This simple lottery occasions its

share of merriment, and then the dancing goes on again. With the punch and the gles-wine, come in also one of those large ernamented and nice cakes, for which the Germans are so famous, and large cakes of gingerbread, in the shape of hearts, with almonds stuck in them. These make an indispensable part of the entertainment of New Year's Eve; accordingly you see them reaved in and before the bakers' windows, and on stalls, in thousands ; some of them at least half-ayard tall, and a feet wide. On this eve, the servants of every house, by right of ancient custom, have their feasts of punch, and their great gingerbread hearts, each servant one

SONG FOR A CHEAPENER. The ploughman he follows behind his plough,

Thinking about his wage, His wife and his little ones they are now All that his heart engage :

How that his labour may furnish them bread He penders with heavy will ; When his master behind him follow'd and said. 'You must work for me chesper still.'

' Cheapness is now the cry of the day, No matter how workers are fed;

They will have cheap things, the people say, Though Labour may want his bread."

The weaver he sat at his dismal loom, With working his eyes were red : All that he earn'd but paid for his room, And his daily bread and bed,

No clothes could he buy for his wife and child, And his eyes let fall a tear : His master came in with an aspect wild.

Your wages are all too dear.' Cheapness, &o.

The fac'ory child work'd ten hours a day, Straining each weary limb: Seldom has he any time to play, Childhood is toil to him : Though his ten hours' work does not buy the food He can eat in the other two, The factor he says, in a desperate mood, 'These wages will never do.'

Cheapness, &c. The tradesman at back of his counter stands. Viewing an empty shelf: Diminishing capital ties his hands, He tries, but gains no pelf.

A customer com-s and he would look gay, Spite of his inward fears : The whole of his profit is cheapen'd away, His spirit sinks in tears.

Cheapness, &c. The wholesale dealer and merchant pause, Their looks are full of care,

STRAND THEATRE.

Of all the plays of Shakespeare, Hamlet has ex-cited the most general attention, being one of the finest efforts of that ' philosophy of thought' which distinguishes the writings of the immortal Bard. This drama is more suitable for the closet than the stage, and he who undertakes the character of the young Prince of Denmark has a task to perform of a very perplexing nature; the study of it requires that the actor should arrive at a correct conception, not only of the brilliant imaginings, but an accurate knowledge of the philosophy of the poet's mind. The commentators upon Shakespeare have differed widely regarding Hamlet's character. There are some who have even maintained that the feigned madness which he assumes, is nothing less than in sanity itself ; oriticism, however, which adopts such an opinion, cannot comprehend that the melancholy and perturbed feeling reigning in the mind of Hamlet, is only that cast of disposition peculiar to all men

of sombre and profound reflection. A melancholy, resulting from the contemplation of the vices and follies too prevalent in the world, may be deeply seated in the human heart, without indicating any of the symptoms of mental aberration. It is the diversity of opinion on the real character of Hamlet, that has exposed the actor to the most perplexing doubts; he falls back upon his own judgment, and hence we witness upon the stage the most varied representations of the Danish prince. At one time, we have an outline too deliberate and formal : at another we see him too rash and splenetic-a fault that at. tended the acting of Edmund Kean. Hamlet throughout is full of deep reflection, and therefore, as it has been justly remarked, there should be no

ambiguous appeals to the audience by a studied exaggeration of emphasis or manner; withal there should be the deportment of the gentleman and scholar, and as little as possible of the actor. To

contend with these difficulties and to overcome them will always form a desideratum in the delineation of Hamlet, in the attainment of which, the actor will never fail to elicit from the discerning few the highest estimation. Mr Kirkland, who has lately appeared on the metropolitan stage in the higher

Strand Theatre, on Friday evening. His youth and figure give identity to the character in respect to external advantage, whilst the rich tones of his voice, modulated by a seeming discretion, exempt him from the torrent and whirlwind of passion, which mars the acting of some who are the most reputed tragedians of the day. The chasteness of his vears. action, the good taste and great talent which he dis-

played, testify that his excellencies in the histrionic art have been the result of close observation. Without entering minutely into Mr Kirkland's merits. we cannot omit notice of the thrilling interview of Hamlet with his mother; the closet scene was admirable; the strains of fervid elequence; the just but severe reproaches on the conduct of the Queen, with the denunciations of the foul villany of the murderer of her husband, were delivered with a private houses without certificates from the Bishop. pathos and energy which seemingly deeply excited derable inroads on the land in front of the Esplathe feelings of the audience, and called forth, deservedly, thunders of applause. The character in all its trying positions was, upon the whole, well sus-tained ; and if Mr Kirkland in the early part of the drama, had exhibited more energy, where Hamlet is agitated by all the conflicting passions which the would have considered his performance a highly states that the Duke of Grafton and his ancestors finished piece of acting. A deficiency in this respect the public manage is a state of the public manage is a state of the public management. dreadful tale of the spirit of his father inspires, we was evident : and it would have been well had the young aspirant, keeping in view, as he generally did, the excellent advice to the players, not overlooked the judicious remark, that to be 'too tame' is as faulty as tearing a passion to tatters. Let Mr Kirkland, in future, evince by his art those deep emotions of the soul under which Hamlet is contending, even amids t

New Year's Eve is a festival which was once celebrated with great feasting and rejoicing in this country. The custom still lingers, and the 'loving cup,' though changed in form, still circulates in spirit. At twelve o'clock at night, the moment the hour has struck, the church bells peal forth a joyous welcome to the new year. This custom, as our readers are aware, is called 'ringing the old year out and the new year in.' This takes place all over England.

We present to our readers

THE YEAR'S LAST CUP. BY FRANCES BROWN.

With the festal song, with the glad hearth's blaze, With the wine of its own bright vintage days, Still rich in the light of rosy eyes It caught through the vineyard's parted leaves-While night, in the might of silence, lies On snow clad hills and on starry skies, And the knell of its number'd hours draws near, We fill the cup of the parting year!

But say to what pledge of memory's hoard Is the wealth of that mystic wine cup poured ?-Is it Time ? To his ever onward track, And his tireless step, that hath ne'er turn'd back-To his glass, with whose dim sands ceaseless flow, Beauty, and strength, and glory go-And his scythe which the nations might bath mown-Let us crink to these ;-but not these slone!

Then pledge we the dark-veiled Fature thus. And the wealth of hope it had once for us-The stores which its billows still may hide-And the barks sent forth on its boundless tide: Or the Past, with its springs in memory shrined The snows which its winters left behind, And the harvests fair which its toil hath sown, We pledge ;-but we pledge not these alone!

Say, then, bath the year's last cup been orown'd For the loved and the loving hearts around-The names in our souls' seal d book enroll'd-The heads of gray and the locks of gold ? May the time-tried friendship fear no thrall Of frosts that cold on life's twilight fall-And the young-may we never find them grown Less true ;--- but we pledge not these alone!

Are there not loved ones yet more dear, That miggle not in our festal cheer-The names by the hearth long heard and wept, And still in the hush of memory kept? Drink to the absent! Change and tears Have fall's on these dim and severing years-But the faith of our love no change hath known; And we pledge them now ;-but no: them alone !

Drink to the changed! They have left their place In our hearts, like a broken altar's base, Still graved with the sculptured names of yore, But a wreck and a ruin evermore. Drink to the dead ! There are hearts that hold Their memory yet with a love untold-For time and death have no shadows thrown On their truth, Shali we drink to these alone ?

Hold ! for the cup hath bright drops left We may not waste on the rent and ref:-One purer plcdge as the year departs-To the holy land of our homes and hearts ! For the faith to her ancient glory given, And the love that for better hopes hath striven :---Ob, bright be her stars, however our own May se: ;- yet we pledge not these sione !

Drink to the world! There is promise yet In the bright To Come, which no eye kath met-In the march of her nations, beckon'd on By the light of their fer-seen Sabbath dawn. Bu: ha:k !-'iis the mighty midnight's chime, Like a voice from the passing waves of Time! And en cup is drain'd with its latest tone; Let us fill to the bright New Year alone!

We said last week, that whilst in Scotland Christ-

he course of the year now expiring.

FAREWELL TO THE YEAR FORTY-EIGHT. BY EDWIN GILL.

Farewell, thou old, and strange eventful year, Of battles, murder, pestilence, and strife, Whose advent filled each despot's heart with fear, While every land with liberty was rife. The hardy Switzer seiz d his gun and spear And the Italian bared the glist'ning knife,(1) To deal destruction on each tyrant band,

Or die for freedom, home, and fatherland, When thou didst issue from the womb of Time, Europe with rapture hail'd thy glorious birth, Which promised bauishment from every clime

Of despotism. Thrones tottered, fell : the worth Of crowns, o'er-loaded by their weight of crime, In dust were laid-worthless; and man stood forth.

Applauded o'en by tyrants. Liberty Disdained by ruthless deeds to stain the free.

O! false philosophy! Still we can applaud The Swiss triumph over priestoraft : still love The brave Gaul; the heroic courage land, Hagnanimous is victory, that drove

A hoary-headed traitor, king of fraud, From France; when the proletarians wove And wore the sacred wreath of liberty, Destroyed in June by the calse bourgeoisie,

Still does the patriotic breast admire The Sicilian struggle with the haughty foe; And hail Palermo's fair, with eyes of fire, Who sought in vain the tyrants' overthrow, (2) And raised the battle cry wi h 'vengeful ire, Headless of the cannon's murderous glow ; Emulating Massaniello's noble deeds, Though Freedom, varquished, weeping, lies and bleeds,

Hail to the Viennese! Hallowed the fane (3) That withstood the sloge, when ' death was drunk With gore:' thrice honoured the immortal name Of Blum, from whose patriot presence shrank The empire's tyrant, until he became The murderer of earth's noblest child, and sunk To infamy. The name of Blum shall be A watchword till the universe is free,

His death shall be avenged ; "the kiss of life" (4) Will never more deceive; but crimson tears Wash cut his last indigni:y. (5) This strife Hath taught a lesson, which after years Stall turn to good account. When man is rife For freedom, he'll scorn each tyrant's fears, And teach the lesson he hath dearly bought, Till all his woes be on the oppressor wrought,

What can I say, my native land, for thee, Where 'thoughts and words' meet with the felon's doom ; Where the aspirations of the free, Consign its votaries to a dungcon's gloom ? What do, but wips the tear of misery From widowed cheek, and orphan's early bloom ; And mourn, dear Erin, o'er thy blighted prime, Uatil thy woes are proved th' oppressor's crime.

Be sure a day of reck'ning is at hand, Let all who wish their country to be free Unite, from John O'Groats to Corny a l's strand : By deeds, not words, prove their sincerity, Support the class-made victims, and command Success by being worthy liberty. Let all do this, we need not then repine.

Farewell old year, and welcome 'Forty-nine.

New Year's Day is the great holiday in France, but of the festivities of our Gallic friends on that day we will speak on another occasion. We quote from Howitt's Journal, the following account of the merry makings on

NEW YEAR'S EVE AND NEW YEAR'S DAY IN GERMANY. New Year's Day is kept in Germany as a thorough holiday; there is service at the churches; business is at a stand ; and like Christmas Day, it is far more observed than a Sanday. New Year's eve is perhaps the most mas-day comes and goes unnoticed, our Northern merry time of the German year. In almost every house friends compensate themselves for their neglect of are parties met to conduct the old year out with dance Christmas by their festivities on Hogmanay (New and sport. About five o'clock in the evening the church Year's Eve) and New Year's Day. Oa tmeal-cakes, bel's ring, and guns are fired off in all directions. In cheese, and whiskey (we speak of the customs of the firing and smell of gunpowder as the night of the 5th of people) are set before every visitor on Hogmanay. November used to be in England. The practice has been However humble this kind of entertainment may seem to the devourers of luxuries, it is not lightly esteemed by those who are blessed with good bition is little regarded. The police go about the streets, stomachs and happy dispositions. CABOL FOR THE NEW YEAR. BY MISS A. SAMUDA.

Hail ! all hail ! to the dawning new year, The mother of months is laid on her bier. But we sing no dirge, and we shed no tear, We look to the future with hope not fear, Then with cance and song, and wassall we'll throng, To welcome the advent of this new year.

The fair young year bath never a stain, Nor a blighted hope nor a throb of pain. Its hours are whisp'ring of Spring again, And fancy is weaving a rainbow chain : Then with dance and song, and wassail we'll throng,

To welcome its beams with its fairy train. The dark old year dealt many a blow. Struck down here a friend foster'd there a foe : Shew'd us bright things began to end in woe, Bade us heart sickness and pain to know. Let the old year die, we'll not heave a sigh, Away to her tomb she may gladly go. But the rising year will alas grow old. All unknown the fate her seasons unfold, When time the record in his hand shall hold, Acd many of these merry hearts be cold, Oh then let us pray in the hour that we may,

By mercy and leve in its course be controll'd, Thy lesson, old year, be never forgot, Though full of the pauge of our mortal let, It may teach us yet in the future hours, To shun the thorns as we pluck the flow'rs; Then a smile and sigh, hope and memory, To the new year's sun, and the old year's show'rs.

It is some time now since we quoted American poetry. The following lines are not inappropriate to the present state of Europe and the prospects of the coming year :---

THE BONDSMAN WAKING.

BY W. H. C. HOSMER. While lettered idlers turn the mouldy page For dreamy records of a Golden Age, Ere the dark seed of mortal ill was sown, And orime, and want, and misery were known When ancient Pan attuned his classic reeds. And Faun and Dryad dauced on flowery meads, Regret the fate, with aspect cold and sour, That makes them insects of the present hour, Bern like the leaf or herb to pass away, Heirs of disease and premature decay, Ours be the nobler task to scan aright The prospects opening in this Age of Light. Now is the hallowed time ! from Heaven a voice

Calls on the race of Adam to rejoice ; Roused by the glad, regenerating sound, The startled bondman wakes and looks around : While, one by one, the clouds begin to roll From the long-veiled horizon of his soul, He asks his lord, with stern, undaunted eye, Why chained these limbs, and thins unshookledwby !

Alike the dusty atoms are that form Oar grosser parts, my haughty brother worm ! Alke the laws that govern our career, From the low cradle to the darkened bler; Great, equal Nature, liberal to all, Pours the same radiance on the hut and hall. Decks in the same impartial green the mould Above the bones of king or beggar old, Sends the same airs of breathing balm to kiss The bomeless outcast and the child of bliss, Nor glads the couch of down with dream more bright Than the coarse straw where poor men rest by night. Though storm and hardship have imbrowned my

skin. Immortal longings multiply within; And what distinction between prince and slave, Knows the bright land that lies beyond the grave? Whence, then, thy right to rack my limbs with toil And bear away the produce of the seil-L ave my poor babes in rage the blast to feel, Wet with hot tears their scant, unwholesome meal, And earthward, like the beasts that perish, gaze From apring-time to the winter of their days Whence, in assuming and insulting tones, Thy right to ask what God himself disowns? Lift, while you may, the scourge of high command, The fall of Guilt Anointed is at hand-Robbes millions on thy palace wall have traced Their yow that man no more will be abased !

They cast about to discover the cause, They have so little to spare : The men who purchase their wares come in ;-'What have ye cheap to sell ?'

Such prices as these are a shame and a sin ;'--Their heartaches who can tell! Cheapness, &c.

All ye who are idle and nought produce, It is very well for ye, To cry ' Chesper the better for every one's use. And most of all for me;' But toil and care, and labour and thought, Sicken and droop and fade, If after all they have faithfolly wrought,

They cannot be amply paid. Chespness, &c. Men are beginning to sicken of this, And to look on the other side ; The general blessing somehow we miss.

Which cheapness promised-and lied; The union houses with crowds are stew'd, For thick and full they stand, And Cheapness lives on the marrow and blood Of thousands throughout the land, Yet Cheapness, &c.

19th. The trials at York were then going on, and great anxiety was manifested as to the probable fate of the Bradford victims. The meeting was held in the Long Pledge Hall, and the numbers present may be estimated from the fact, that the money collected was £2 17s., the surplus being voted for the defence of the prisoners. The council promised to use their influence to re-establish the old Plan of Organisa. tion, and, as an earnest of their good intentions. voted 10s. to the Executive Fund. Under judiciou management, Chartism would flourish in Bradford The town is densely populated, and when meetings are held, there is an unanimity of resolution, powerful for good or evil, depending solely on its direc. tion to a practical and defined purpose. A local council, wisely chosen, consisting of the most sober and experienced of the body, would, by perseverance. speedily regenerate the popular movement. The enthusiasm of youth is always to be courted, honoured, and admired. It is the young blood of a state that gives energy to popular reforms ; but, in a country like this, the institutions of which are old, and its people unhabituated to sudden changes youthful enthusiasm sometimes becomes dangerous it ripens and quickens into resolution-re-action is correlative among the propertied and dependant classes-men are afraid-despotism is strengthened -and the magnified fears of the middle classes are the stock-in-trade from which ministers undermine the liberty of the subject by Coercion and 'Gagging Bills,' and their sure successors-political persecutions. Therefore it is that intelligent and experienced men are most valuable as sub-agents of the National Charter Association. We require the energy of youth, directed by the experience of age, The old soldiers are the sappers and miners, who prepare and direct the attack; the young constitute the active and reserve forces, who carry the siege and storm the citadel. Both are indispensable for victory. But the sappers and miners must go first, More money has been collected in Bradford than in any other town of its size. Yet they are in continued trouble and pecuniary difficulty. Let the past he a lamp to light the path for the future and Bradford, once enrolled in the Plan of National Organisation, for the objects defined in the rules of the society, and, my word for it, this town will be found I next proceeded to Honley, a small manufacturing village, laying between Huddersfield and Holmfirth. The friends here have a hall for their own standing, the meeting was well attended. A most respectable and intelligent-looking workman asked the following question: -- 'Mr Kydd, seeing we are so surround d by bigotry and error, do you not think it would be wiser for the friends of progress to form themselves into societies for the organisation of labour ?' I answered, 'It is the interest of all men to improve their circumstances industrially, and nothing could be more desirable than that the labourers should be enriched by the

agents engaged, and acted upon by such measures What will be the general results in their relation to the interests of humanity? Chartism is not de-6 structive, but humanising; political, social, and moral reform are not antagonistic, but joint parts of the same whole. I say, then, to the Communists, cooperators, and moral reformers, 'Go on, and I wish you may prosper.' Such a question suggests to your readers some thoughts on the 'spirit of the age," and is worth more than the last volume of Hansard, containing the rambling lucubrations of Chisholm Anstey, the witticisms and conceits of Disraeli, and embodying in thick boards the crudities, absurdities, and puerilities of Parliament. I returned by coach and railway to Keighley, and lectured on Thursday evening at Howarth, a small hamlet among the hills, in the Keighley district. On Friday I lectured in Silsden, in the same district. The meeting was 0 5 0 held in the Odd Fellows' Hall, and was well at-• 1 • tended.

On Saturday I proceeded to Sutton, through one of the finest valleys in Yorkshire, and found that our Sutton friends had procured the use of a chapel at Cross Hills, about half a mile distant. The meeting was crowded to excess, the managers and elders of the chapel being present. They opened by singing a hymn. I lectured on 'Labour and Land.' A most respectable middle-nged gentleman, who is, I am informed, a local preacher, and an elector of the Riding asked me by what means did I hope that Universal Suffrage could become law? I replied. That as an acknowledgment of truth, singleness of purpose, energy of action, intelligence and organisation of numbers seemed to me to be the elements of success, we would endeavour to aggregate those from £ e. d. society; and if we could by persuasion and argu-9 ment change the thoughts of men, we would one day change institutions, laws, and governments.' The 0 leader of the band gave out the Hundredth psalm. beginning with the line, 'All people that on earth do dwell; and so ended the labours of t! e we k. On Sunday I addressed a crowded meeting in the Bazaar, in Leeds, hundreds being unable to obtain admission. At the conclusion, the organisation 2 was begun, and the committee generously voted £1 2 as a new year's gift. I proceeded to Rotherham, to o a tea party ; the meeting was select, harmonious, 3 and elevating. I thank our Rotherham friends for their great support. At Rotherham there are a few fine fellows, and now, as they have procured a regular place of meeting, I augur their success. Mrs Theobald, a lady-lecturer on temperance, addressed the meeting, and made a feeling appeal on behalf £2 4 9 of the victims. I this evening lectured in the Town Hall on 'Labour, its position and prospects.' And as our friends in the Midland Counties, for most sufficient reasons, desire to postpone my visit for a month, I will return to London, not later than Saturday. Wishing you and all your readers a happy new I remain, yours faithfully, year, 1 13 6 SAMUEL KYDD.

Why you would laugh at me in the face, if I made such a proposition, and tell me that if I altered the wheels I should throw the whole machinery into confusion. Now it is just such a thing you have proposed to do with the government. There are wheels in the country which are put into working order by the government for the general good of the country, and if you endeavour to alter those wheels or put in new ones, you put out of order the entire machinery of government.

The cold and harsh weather has set in, and we are now entering upon the most trying period of the winter. Unless in well-circumstanced countles, chiefly in Ulster, the numbers of the destitute poor are increasing to an alarming extent. There is, in many districts, a total stoppage of employment for day labourers; and as the labouring classes are entirely without resources, they are necessarily driven to the workhouse, or the outdoor relief, as their only hope of succeur. This, let it be remembered, is the first winter since the failure of the potato in 1845, that this country has been left to struggle upon its own resources. In the intermediate years a vast amount had been exp nded in the shape of grants, loans, and voluntary charlty from the British Association, the relief committee of the Society of Friends, the Irish Central Relief Committee, and other charitable societies. But now, after wasting famine, and the exhaustion of all those public and private contributions, the poor-law alone is substituted, and it is no wonder, surely, that the burden should prove so The course adopted on Friday in the Commis- overwhelming, especially in those western and southern sion Court has made a serious change in the case of districts, where land, to a considerable extent, is aban-Mr Duffy, which has been fought with so much doned, whilst poor rate is rapidly augmenting. This occurred, a few days since, on an estate near Groom, county of Limerick. But more generally tenants are robbing the andlords. Here is an instance of this daring roguery, as given by the LIMEBICK CHRONICLE :----"RUNAWAY TENANTS. -- This is now become an abitual practice. Friday night two tenants of Mrs Hurly, Tralse (William O'Donnell and Jeremiah) rent on the 29th of September last, £150, residing on some of the best land in Kerry, took off their stock consisting of twenty-four cows, three horses, corn, hay, on the part of the prisoner. That of the House would.

On the same subject, the DUBLIN EVENING POST says The committee of Irish poor-law guardiens apprinted at the meeting on Tuesday have forwarded to the du ferent boards throughout the country propositions for the modification of the poor-law, in accordance with the views set torth in their petition, but more minutal? stated. They recommend a diminished area of taxation ; that the workhouse staff and the medical charities should be supported by a national rate; and that the general expense of relief should be met by local ra.es, THE IRISH LANDLORD STOTIM. A very remarkable statement appears in the EVENING Post, on the relations between landlords and tecante in ests of the country, or practical in i's operation, when will not have a tendency 'to get rid of the great in causes of Irish poverty and wretchedness, namely, :t. beggared and cruel nominal proprietors of Irish estates, it is held that the interests of this class, as well as the improvement of the condition of the occupiers, regulate a complete reformation in the system of landlordism by Ireland. A contrast is drawn between England such Ireland, to show that both have the same laws of tenure, but a totally different mode of dealing between the landlord and tenant in the letting of farms, the preparation of farm buildings, the allowance for valuable improvements, and, in fino, in the entire arrangements between the owner and occupier; the object being in whilst, in Ireland, the rule has been to deprive him or all motive to exertion for independence. The object of this system, it is contended, has been to reduce the occupiers to exist upon ' roots and water ;' and neither free trade in corn, nor the poor law, can be truly assigned as a cause for themiseries which the potato discase has aggravated, but did not produce. We extract some passages, in reference to the agilation for a total change in the poor-laws, as many weeks cannot elapse before this subject will be discussed in all its bearings in Parliament :---'Let us come into the present century, and institute a search into 'facts' and 'authorities,' and see if we can find out any period at which a favourable change took place in the conduct of Irish landlords, but par. ticularly those of Munster. From 1850 to 1848 we have had innumerable committees and commissioners of all classes, inquiring into the ' causes of Irish poverty and crimes.' We have a host of writers, foreign, English, and Irish, pursuing the same subject, and what are the 'causes' to which they all attribute poverty and crime in Ireland ? Are they to the lazy, slothful disposition and habits of the Celts ? or, are they to 'surplus popr a tion !' or, ' minute subdivision of land !' 'or to the I. sufficiency of the landlords' powers ! Not by any means) but to ' exorbitant rents,' and the ' oppressive nature of the landlord's treatment of his tenantry.' It would protract this letter to too great a length to add even a portion of the sworn and written testimonies of various Figs. sons who have been examined before committees of both houses of parliament, or who have written upon the subject, but it must be known that in all the inquiries instituted by government or private individuals, the one great fact, the monster evil of Ireland-bad landlordian -is condemned as the great source of Ireland's poverty and crimes. Nimmo, Griffith, Judge Day, Dr Doyle, and handreds of others, have sworn to the guilty nature of Irish landlordism, while Wakef. 14, Kohl, De Beaumont, Lowis, W ggins, Sacler, Binns, in fact, every one why has investigated the subject, concur in their condemnation of it, and have vindicated the libelled and 'rosteating slaves' of 'Munster cruolty' and ' Connaught beg gary,' from the charge of being naturally prone to be lazy' or 'indolent.' 'When, therefore, the representatives of bad and cruel Riodan), in comfortable circumstances, owing a year's landlordiam lay their prayers before the Legislature for a 'change' in the poor law that will 'save the labourers from being domorelized, and all classes (that is thimselves) from being ru ued,' those members of the Imperial Parliament who are really desirous of laying the foundation for the present salvation and futura prosperity of this country, will do well always to keep in mind that unless the alterations in the poor law are of such a nature as to fix the penalties of bad and cruel landlordism on the real delinquents, regardless of what the consequences may be to them, and unless all the old and stupid prejudices which have blinded, up to this time, our legislators, and rendered them either incapable of percrifing or unwilling to remedy the real causes of the difficulties' which the government of Ireland always; At the conclusion of his argument, the learned It is now well known that several landed propriet or presented, are got rid of, the good and virtuous (and the effect of exterminating pauper tyrants, and the whele country, with all its people, interests, &c., be sacrificed for the unwise purpose of preserving in positions they have, by all the laws of equity, justice and humanity, Amidst all the misery prevailing in so many districts in forfeited, the worst enemies to the rive and pregress of the south, exports are steadily increasing of various agri. national prosperity that ever cursed or disgraced a season have been shipped on board the vessels of the

TO THE PEOPLE OF ENGLAND.

LETTER IX.

FELLOW COUNTRYMEN .-- It is my duty, with such ability as I possess, now to trace the working of Mr William Rand's third and last remedy for our present national misfortunes ; to dizcover, if I can. that thereby such an improved demand for our manufactures will be obtained as will bring all the people into employment, and thus secure a demand, at remunerating prices, for a vastly increased production in agriculture. Mr William Rand has not left us to conjecture

what our national discases are. They consist. he tells us, in ' that constant stream of immigration, from the rural parts of the country into the large towns and villages of the manufacturing districts." The numbers employed in agriculture being considerably fewer than they were in 1811, notwithstanding the large increase in the general popula-tion of the country.' 'The productions of agricul-ture being far less than the home demand requires,' while the productions of manufacture have, for During the period I have administered the executive years, exceeded the demand.'

The melancholy, but natural, results of such envire neglect in regulating our national productions, sc as to meet the wants of the people, and thus secure a demand, are declared to be 'the most depressed coneventful times. I have felt most sensibly the weight of dition of trade-extensive and alarming social evils the high responsibilities devolved upon me.
